⚠ THE FLEET POLICY

Bryte cancelled the fleet policy on **22 October 2026** citing non-payment. Your bank confirms **R359,000.00 paid on 20 October** (16:00) and **R382,038.66 on 21 October** (16:23), both to Bryte Insurance Co Ltd under reference ROUTELOGIC F26/561. Together that is **R741,038.66, one full month's premium (R741,038.65) to within a cent.** We are asking Bryte in writing for the cancellation notice and for either reinstatement or a full refund, and we are placing replacement fleet cover as a priority. **Until replacement cover is confirmed in writing, treat the fleet as uninsured.**

⚠ CONDITIONS ON FUEL AND CHEMICAL LOADS (WARRANTIES)

Tankers must be dedicated, certified clean and fit for purpose before loading; transits must meet the Road Traffic Act and SANS hazardous cargo standards; accurate tallies of volumes loaded and discharged must be kept at every transfer point; quality must be tested when risk attaches; all loads must conform to **SANS 10187**. On fuel, contamination, unexplained shortage, quality degradation and environmental or pollution liability are excluded. Fertiliser: spontaneous combustion excluded.

PREMIUM ADJUSTMENT AND PROFIT SHARE

The premium is a **minimum and deposit**. Within 60 days of the policy year you declare the haulage revenue actually achieved and the premium is **adjusted upwards** at the agreed rate. If you renew and the loss ratio is below 50%, the insurer pays a **10% profit share**, with deficits carried forward up to three years.

WHAT WE WILL TAKE UP FOR YOU

Six points from reading the three policies

POINT	WHAT WE WILL DO
1. Fleet cancellation	Ask Bryte in writing for the cancellation notice and the due date it applied, and for reinstatement or a refund of the R741,038.66 paid on 20 and 21 October. Place replacement cover as a priority.
2. Fleet list	Your register shows 109 trucks and 238 trailers; the schedule of 1 August carried 110 trucks and 205 trailers. Several trucks are being returned or handed in. The replacement will be placed on your current list, with values.
3. Buildings escalation	On the Bryte quotation the escalation lines are rated at 9% and 4.5% instead of 0.09% and 0.045%, which makes them 100 times too high (R66,231 a month), and they are left out of the total. Two escalation amounts are also wrong. We will confirm with Bryte that escalation cover is in force and correctly charged (about R662 a month).
4. Buildings insured name	The quotation names Hendrik van Wyk Vervoer & Purple Rain, not Routelogic. We will confirm that every company that owns a building or carries the business is named.
5. Goods in transit revenue	Section B is rated on declared haulage revenue of **R5,495,600,000 a year**. The deposit premium adjusts upwards only, so an overstated figure is paid for. We will confirm the figure with you before the next declaration. The printed rates also do not reproduce the premiums; we will ask Navigate to explain.
6. Liability	Public liability is R1,000,000 under a R20,000,000 umbrella. We will check the umbrella's minimum underlying limit and whether R1 million is enough for your premises and yard.

WHAT WE NEED FROM YOU TO PLACE THE FLEET

The fleet register with a **value for every unit** and who holds title (finance houses and lessors are noted on the policy) · a **three-year claims record** from Bryte and Lombaards · confirmation of which units are comprehensive and which third party, fire and theft · the tracking unit on each truck and trailer · licence renewals: **18 trucks and 4 trailers** in your register show licence discs past their expiry date, and an unlicensed vehicle can prejudice a claim.
