Wes-Kaap Playbook, round 6

Six rounds, and for the first time a quote that is cheaper AND better on the decisive cover. **It also insures R7.9 million of buses as a building. Fix that before the client sees it.**

 SANTAM NOW

R37,535/mo

incl. R2,898 STP fee

 ONE CORRECTED

≈ **R34,582/mo**

-R2,953 · 7.9%

 THE GATE

Fare-paying

not written on the ONE quote

The game plan

Rounds 1 to 5 were about one thing: does the passenger cover respond for a scheduled bus operator. ONE's new quote doubles the limit to R5m and adds the unauthorised passenger cover Old Mutual never did. **But it still does not say "fare-paying", and its office quote is wrong by about R1,660 a month in ONE's favour.** Fix both before the client sees a number.

RUN IT IN THIS ORDER

1

Today, to ONE (before anything goes to the client): reissue ONET/1297249 with fire on R809,340 and office contents R59,400, the R7,923,960 bus placeholder removed; state fare-paying passenger liability R5m on the schedule with seat basis; name the insurer behind HCV/1295809; correct the business description to include the bus operation.

2

Open the client on liability, not price. R2.5m to R5m on passengers, unauthorised passengers, third party and contingent. That is what they have been asking for since July, and it is inside a lower premium.

3

Then the fee. STP Intasure charges R2,897.76 a month on top of R4,404.67 commission. ONE's policy fee is R100. Half the saving is the incumbent's fee, say so plainly.

4

Then the two honest regressions: bus excess 10% of claim (min R4,000), and no automatic cover for new vehicles. Both disclosed on the Record of Advice.

5

Then the Prado. A 2010 Prado VX, CFG41137, is on the ONE quote and not on Santam. Ask whose it is before you count R1,277 either way.

THE LINE THAT SELLS THE FILE

"Same 51 buses and bakkies, double the liability, R2,950 less."

And it is true only once the fire error is fixed. Do not quote R36,246 as the saving, it understates it; do not quote R34,582 until ONE confirms it.

▲ BEFORE YOU PRESENT

ONE's fleet quote expires 2 October. Santam needs 31 days' notice and is monthly. Target inception 1 November with notice to STP by 30 September, and ask ONE in the same e-mail to hold the quote to 31 October. The claims history goes to ONE now: the quote says a material change lets them re-rate.

Santam vs ONE, reconciled to the cent

R7,923,960 of fire cover that does not exist

SANTAM FIRE SECTION, PAGE 7

COLUMN 5 ITEM	SI	/MO
Diesel in bulk tank in the open	150,000	50.00
Office contents	59,400	19.80
Plant & machinery and stock	659,340	219.78
"Sasria cover for the busses, depot risk only"	7,923,960	0.00
Subtotal	8,792,700	289.58

ONE FIRE SECTION, PAGE 9

ITEM	SI	/MO
Plant, machinery, contents	659,340	98.90
Miscellaneous (diesel 150,000 + "miscellaneous" 8,792,700)	8,942,700	1,341.41
Office contents (separate section)	59,400	46.04
Fire + office	9,661,440	1,486.35
Sasria F2 on the R8.94m		350.82

WHAT HAPPENED

Somebody took Santam's column-5 **subtotal** (R8,792,700), which is 90% a Sasria placeholder for buses parked at the depot, added the diesel again, and typed it into ONE's system as a miscellaneous building item. Then ONE rated it: R1,341.41 of fire premium and R350.82 of Sasria on **buses that are already insured under the motor section**, plus the plant and the office contents rated a second time. The real fire exposure at Uitspan Street is **R868,740**.

TO ONE, TODAY

"Please reissue ONET/1297249. Fire: plant, machinery and stock R659,340; diesel in bulk tank R150,000. Office contents R59,400 as quoted. Delete the R8,792,700 miscellaneous item, it is Santam's subtotal including a R7,923,960 Sasria-only bus line. Also correct the business description to 'Commuting of workers, school tours, transfer of school children, luxury bus tours and repair and maintenance of vehicles'."

WHY IT MATTERS BEYOND R1,660

If it went unfixed, ONE would be carrying R8.9m of "buildings" on an average-condition fire section for a client who owns R868,740 of property at that address. At claim time an assessor asks why. Fixing it now is the difference between "the broker who checked" and "the broker who copied".

Passengers, third parties, conditions

COVER	SANTAM	ONE	VERDICT
Passenger liability	R2,500,000 every item	R5,000,000, "fare-paying" not written	CONFIRM WORDING

New acquisitions	per wording	no automatic cover	DISCLOSE
Single-vehicle limit	as scheduled	R650,000; Iveco R1,280,643 declared	FITS REGISTER

THE GATE, SIXTH TIME

The quote says "Passenger Liability R5 000 000". Nothing about fare-paying, seats, or scheduled services. In round 2, ONE UM's own TOURS quote needed a **dedicated fare-paying passenger liability section** before it was like-for-like with Santam. This HCV quote has none. King Price died on exactly this wording over five revisions. **Get "fare-paying passenger liability R5,000,000, all buses and the Quantum, seat basis" printed on the schedule.** An e-mail is not a schedule.

WHO IS THE INSURER?

Fleet quote: **ONE Insurance Underwriting Managers (Pty) Ltd, FSP 8783**, an underwriting manager, insurer not named. Office quote: **One Insurance Limited t/a ONE**, reg 2022/500084/06, a licensed insurer. In July ONE UM's bus quote sat on Old Mutual Alternative Risk Transfer paper. Ask in writing who carries the fleet. Two policies, possibly two balance sheets, one client.

IN THE ROOM

"Every liability limit on your buses doubles. Passengers, unauthorised passengers, third parties, the lot: R2.5 million becomes R5 million. And it costs less than what you pay now, because R2,900 of what you pay now is your broker's fee, not insurance."

The Naked Truth

Six things that can turn this file. **Two of them are ONE's mistakes; fix them before the client can find them.**

1 ► The office quote is wrong by R1,660 a month.

R8,942,700 of "miscellaneous" fire is Santam's subtotal with a R7.9m bus Sasria placeholder inside it. Plant and office contents are rated twice. If the client's accountant reads both schedules side by side, this is the first thing they find.

DO Reissue before presenting. Present the corrected figure as "subject to ONE's reissue", never as your own arithmetic.

2 ► "Fare-paying" is still not on the paper.

Five rounds turned on this. ONE's July quote needed the section added; this one does not have it. R5m of passenger liability that does not respond for a scheduled operator is worth R0.

SAY "Print it on the schedule: fare-paying passenger liability R5,000,000, all buses and the Quantum, seat basis. Then we sign."

3 ► There is a 52nd vehicle nobody asked for.

2010 Prado VX CFG41137 on the ONE office quote, absent from Santam's 51. Either newly bought, insured elsewhere, or a data error. Counting it either way moves the saving by R1,277.

ASK "Whose Prado is this, and where is it insured today?"

4 ► The fleet premium is a flat number that can move.

R390,000/yr on a "fleet basis" with a premium adjustment clause, a final fleet list still to come, Sasria "to be agreed", and the right to re-rate on the claims history. Present R32,714 as ONE's number, not a rate the client can hold ONE to.

DO Send the 51-unit list with values and the claims history to ONE now, and get the fleet figure confirmed on that list.

5 ► Bus excess doubles, and new buses are not covered automatically.

10% of claim min R4,000 on buses; Santam prints no bus excess and shows a R5,000 voluntary. And ONE: "Automatic cover does not apply to any acquisitions." A bus bought on a Friday is uninsured until declared.

SAY "Two things get worse, and I want you to hear them from me: the excess on a bus claim, and that every new vehicle must be phoned in the day it arrives."

6 ► STP will counter, and it has R7,300 a month of reasons to.

Fee R2,897.76 plus commission R4,404.67 on this account. Expect a same-week Santam re-quote with liability lifted to R5m and the fee cut. Good: the client wins either way.

SAY "If your broker suddenly finds R5 million of passenger cover and drops his fee this week, ask him why it took another quote."

The Battlecard

THE NUMBER

≈ **-R2,953/mo**

corrected; -R1,290 as quoted

THE GATE

Fare-paying

on the schedule, in writing

THE OPEN

R2.5m → R5m

every liability limit

OPEN

"Same 51 vehicles, same basis on every one of them, and every liability limit doubles. It costs less. Before we get to the number I want to show you where the saving actually comes from, because half of it is a fee you are paying today."

THE OBJECTIONS YOU'LL HIT, AND THE WORDS THAT ANSWER THEM

💬 **"Old Mutual was only R230 cheaper. Why is ONE R3,000 cheaper? What's the catch?"**

- ✓ Two things. ONE prices the fleet as one flat premium instead of 51 rates, and there is no R2,900 broker fee. The catch is real and small: the excess on a bus claim is 10% of the claim, and a new bus must be declared the day you buy it. Both are in writing in my advice.

💬 **"You said the same thing about King Price in July."**

- ✓ I said King Price was cheaper and that its passenger wording did not fit you, and I would not let you sign. That is the same test I am applying here: the R5 million must say fare-paying on the schedule before I put it in front of you as final.

💬 **"Why did the ONE quote come in at R36,000 and now you say R34,600?"**

- ✓ Because ONE insured R7.9 million of your buses as a building at the depot. It is a copying error from the Santam schedule, and I sent it back the day I saw it. The corrected figure is theirs to confirm, not mine to promise.

💬 **"What about Sasria on the buses?"**

- ✓ Neither policy has it, because you took it off in June. That was your call and I am asking you to confirm it in writing again, so nobody can later say it was mine.

💬 **"I don't want trackers on old buses."**

- ✓ ONE needs them on ten: anything over R500,000 plus the Hilux, Fortuner and Quantum. Without them those ten have no theft cover. The saving pays for them, and you get live location on the buses carrying your scholars, which your WCED contract will like.

🌙 NIGHT BEFORE • 60 SEC

- ☐ Santam R37,535.20 • ONE R36,245.58 • corrected ≈ R34,582
- ☐ liability R2.5m → R5m, all four
- ☐ fare-paying: not written
- ☐ bus excess 10% min R4,000
- ☐ 51 units R13,011,084, same split
- ☐ fire error R8.94m, reissue
- ☐ Prado CFG41137: whose?
- ☐ ONE expires 2 Oct; inception 1 Nov

👉 CLOSE LIKE THIS

"Give me three things: whose Prado that is, the registration numbers on the two MAN 65-seaters, and your Sasria decision in writing. I will bring back one corrected ONE schedule with fare-paying passenger liability printed on it and the insurer named, and we move on 1 November with no gap."

🔧 THE REFRAME THAT WINS THE ROOM

This client has watched you refuse to recommend two cheaper quotes because the passenger wording was wrong. That is why they will believe you now. Lead with the doubled limits, be first to name the excess, and let the fee do the talking on price.
