

INSURANCE REVIEW · SEPTEMBER 2026

Same fleet, better protection

Your current Bryte policy and three alternatives, read line by line across all 25 vehicles and every section. One is ready to sign and closes the gap that matters most to a guarding company. Another is far cheaper **and** has the best liability section, once three things are added to it.

CURRENT · BRYTE

R48,517/mo

all-in, incl. add-ons

SANTAM · READY TO SIGN

R45,883/mo

-R2,634/mo · passengers covered

ONE · CHEAPEST, TO BE

● 25 vehicles · R10.8m

Office contents

● Equipment and solar

Public liability

What each one costs

Every figure below is the all-in monthly amount: premium, Sasria, fees and value-added products. Your current Bryte policy is the benchmark. ONE quoted 27 vehicles (two Rangers more than the other schedules); its column is shown on the same 25 so the comparison is fair.

SECTION	BRYTE (CURRENT)	SANTAM	HOLLARD	ONE (25 VEHICLES)
Motor - 25 vehicles Comprehensive, business use, retail value. Incl. Sasria.	R44,448.18	R44,111.45	R43,530.94	≈ R38,806.67
Office contents R110,000	R132.99	R96.25	R80.21	R89.37
Business all risks Laptops, generator, inverter, phone, solar system at the mine.	R1,134.58	R693.36	R783.92	R726.35
Accidental damage Bryte and Hollard R360,000 over two sites. Santam R150,000, one site.	R600.00	R125.00	R450.01	R375.00
Electronic equipment R50,000 Control room computer.	R146.46	R125.00	R125.01	R62.50
Public liability R1,000,000 See page 03.	R160.00	R80.00	R83.33	R95.00
Fees and Sasria on the office sections	R94.54	R51.83	R325.00	R53.06
Value-added products Bryte: roadside, funds protect, BMW excess reducer. Santam: fleet assist + BMW 5-in-1. Hollard: vehicle control R90 × 25 + OfficeBuddy. ONE: roadside on every vehicle inside the premium.	R1,800.00	R599.75	R2,474.98	roadside incl.
All-in per month	R48,516.75	R45,882.64	R45,628.42	≈ R40,207.95
Against current	.	-R2,634.11	-R2,888.33	≈ -R8,308.80

READ THE SAVING HONESTLY

On the vehicles themselves Santam is **R336.73 a month less** than Bryte, which is flat. The rest of the difference is add-on products you can choose to keep or drop, and two items Santam quoted smaller than your current policy: accidental damage and one cellphone. **Once those two are put back the saving is about R2,180 a month, roughly R26,000 a year.** That is the number to plan on.

ONE: THE CHEAPEST BY A DISTANCE, AND NOT YET COMPLETE

ONE's quote (as quoted R42,932.86 for 27 vehicles) is about **R8,300 a month below Bryte and R5,700 below Santam** on the same 25 vehicles, with roadside included and the strongest liability section of the four. But as printed it has **no passenger liability on 26 of 27 vehicles**, a third-party limit shown on only two, and an extra 5% excess on any claim between 23:00 and 04:00 and on any single-vehicle accident, which for a night patrol fleet is most claims. We have sent it back for those to be added and priced. **Page 02 shows what has to change.**

WHY HOLLARD IS NOT IN THE RUNNING

Hollard covers **only the drivers named on the schedule**, gives **R1,000,000** of third-party cover per vehicle instead of R2,500,000, covers no passengers, and provides no theft or hijack cover on 24 of your 25 vehicles until a tracker certificate is on file. For a guarding company with rotating drivers that policy does not work. Page 04 has the detail.

Your people in the vehicles, and your liability at the client's site

A security company's risk is not at head office. It is in the bakkie taking guards to a post, and on the client's premises once they are there. Those are the two places we read the three policies hardest.

COVER	BRYTE (CURRENT)	SANTAM	HOLLARD	ONE AS QUOTED
Passenger liability Guards and supervisors injured while being transported in your vehicles.	Not taken	R2,500,000 every vehicle	Not offered	R1,000,000 on one Vitz only
Unauthorised passenger liability	Not taken	R2,500,000 every vehicle	Not offered	R2,500,000 on 8 bakkies, none on 19
Third-party liability (motor) Damage or injury your vehicle causes to others.	R5,000,000 on the schedule R2,500,000 in the wording	R2,500,000	R1,000,000	R2,500,000 printed on 2 of 27
Public liability Injury or damage your business causes to others.	R1,000,000	R1,000,000	R1,000,000	R1,000,000 broadform
Work away from your premises Where all of your guarding actually happens.	Not stated	Excluded as quoted	Not stated	Broadform: business activities covered
Wrongful arrest and defamation	R50,000	R50,000	Not included	R250,000 ; legal defence R250,000
Retroactive date (claims-made) How far back a claim can reach.	20 Oct 2023	20 Oct 2023 kept	Resets to start date	Occurrence basis, no retro date needed

YOUR CURRENT POLICY DOES NOT COVER THE PEOPLE IN YOUR VEHICLES

Every one of the 25 items on the Bryte schedule reads *"Additional Passenger Liability: No"*, and the armoured Land Cruiser used at the mine carries a note that reads *"Passenger Liability is excluded."* If a guard is injured in one of your bakkies on the way to a post, the current policy has nothing for it. **Santam includes R2,500,000 on every vehicle inside the premium.** That is the single biggest reason to move.

PUBLIC LIABILITY: THE LIMIT IS LOW EVERYWHERE, AND SANTAM'S HAS TO BE FIXED BEFORE YOU SIGN

All three policies carry **R1,000,000**. For guards working on a mine site that is thin. Santam's quote goes further and states *"Public Liability EXCLUDES WORKAWAY"*, which would exclude the client's premises, the only place you have liability. **We are having work away written in and R5,000,000 and R10,000,000 priced before this is presented as final.** Hollard, for its part, drops wrongful arrest and legal defence, which a security company needs.

AND THE EXCESS

Bryte: **10% of the claim, minimum R10,000.** Santam: **5%, minimum R4,000.** ONE: **5%, minimum R3,000, but plus 5% if the claim happens between 23:00 and 04:00 and plus 5% for a single-vehicle accident.** A patrol bakkie that hits a pole at 2am pays 15% at ONE and 5% at Santam. We have asked ONE to remove the night loading for a security fleet before we recommend it.

The fleet, reconciled

Same 25 vehicles matched on registration or chassis. Santam re-rated retail values as at August 2026, so most sums insured moved slightly. Monthly premium per vehicle includes Sasria, accessories and credit shortfall where taken.

VEHICLE	REG	BRYTE SI	SANTAM SI	BRYTE	SANTAM	Δ

TWO THINGS TO NOTICE

Santam moved eleven vehicles up and thirteen down; the fleet total is almost flat. The Bryte figure includes the Land Cruiser's R537,800 of armour as an accessory. **Credit shortfall** on the nine financed vehicles is kept at Santam and is cheaper (R1,543 against R2,205 a month). One correction is needed: Santam quoted the Ranger JN04CFGP on a limited basis rather than comprehensive; we have asked for it to be corrected.

Corrections and open items

ON THE SANTAM QUOTE, OUR SIDE

- ✓ **Work away written into the public liability**, and R5,000,000 and R10,000,000 priced.
- ✓ **Ranger JN04CFGP to comprehensive**. It was quoted on a limited basis by mistake.
- ✓ **Accidental damage back to R360,000** over both sites. Santam quoted R150,000 at Trezona only and left out the mine site.
- ✓ **The Samsung Galaxy S24 back on at R21,000** (it is quoted at R0), unless you no longer have it.
- ✓ **Interests noted**: ABSA, Wesbank, Ford Credit, Phezulu Oil, and Multi Source Distribution Agency as owner of the two Vitz. Santam currently shows none of them.
- ✓ **Third-party liability to R5,000,000** on every vehicle, the figure your current schedule shows.
- ✓ **Start date moved to 1 October 2026** so there is no gap and no double debit. The quote is valid to 23 September.

ON THE ONE QUOTE, OUR SIDE

- ✓ **Passenger and unauthorised passenger liability R2,500,000 on every vehicle**, and R5,000,000 priced.
- ✓ **Third-party liability R5,000,000** printed on every item, not two.
- ✓ **The 23:00 to 04:00 and single-vehicle loadings removed** or priced for a patrol fleet.
- ✓ **Sasria on the cars at the private-vehicle rate** (ONE charges every vehicle as a goods vehicle, about R580 a month too much).
- ✓ **Broadform liability at R5,000,000 and R10,000,000 priced**.

FROM YOU

- ✓ **Which fleet list is right**. ONE was given 27 vehicles: it adds two Rangers (KZ32XSGP 2019 and MY91ZHGP 2022), shows the JACs and Vitz registered (ML73JXGP, ML73KCGP, ML73KHGP, MX08DTGP, MX08FBGP), and different registrations for the Land Cruiser (MJ25CJGP) and the Grand i10 (MR38ZYGP). Bryte, Santam and Hollard all work off the older list.
- ✓ **The BMW's year**: Santam says 2023, Bryte says 2022.
- ✓ **Your claims over the last three years**. Santam's price is conditional on confirming them. We know of the settled repair on Ranger KV57DMGP.
- ✓ **Where each vehicle sleeps**. The Land Cruiser is at the mine; the rest are recorded at Trezona Avenue.

TRACKERS, ON EVERY POLICY

Your current policy already requires a tracking device on 16 of the 25 vehicles (all the Rangers, all the Polos, everything over R750,000, two on the Fortuner) and none is recorded. Santam requires them on four and adds a 20% excess if security is not as declared. Hollard gives no theft cover at all without one. **Cartrack units on all 25 settle this on whichever insurer you choose**, and give you patrol-route proof for your own clients.

NOT ON ANY OF THE THREE POLICIES, AND WORTH A CONVERSATION

Group personal accident for your guards (assault or injury on duty, over and above COIDA) · **fidelity** (a client's loss caused by one of your own guards) · **employers' liability** · **business interruption**. None of these was ever quoted by any of the three insurers. Group personal accident and fidelity are the two we would price first for a guarding company, and many of your own clients' contracts ask for them.

What happens now

OUR RECOMMENDATION

Two live options, in this order. ONE is about R8,300 a month below what you pay today on the same vehicles, includes roadside, and has the strongest liability section of the four (broadform, wrongful arrest R250,000, no retroactive date to lose). It becomes our recommendation the moment ONE adds passenger liability on every vehicle and removes the night-time excess loading; we have asked for both. **Santam** is ready now: it costs less than today, halves the excess and insures the people in your vehicles inside the premium, once the public liability is corrected. Either way, we will not ask you to sign a schedule that leaves your guards uncovered in the bakkies.

OUR SIDE

1

ONE and Santam both corrected, in writing

ONE: passenger liability on all vehicles, third party R5m, night loading removed, Sasria reclassified. Santam: work away in, liability at R5m and R10m, Ranger JN04CFGP comprehensive, accidental damage and the phone restored, interests noted.

2

Three-year claims history to both insurers

Both quotes are conditional on it. So the price you see is the price you pay.

3

Notice to Bryte, start date 1 October

We handle the cancellation timing. No gap, no double debit.

4

Trackers fitted

Cartrack units across the fleet, certificates to the insurer.

5

Group personal accident and fidelity priced

For you to decide on, separately from this decision.

YOUR SIDE

- ✓ The four answers on page 04: registrations, the BMW's year, claims, and where the vehicles sleep.
- ✓ Whether you keep the Samsung S24 on cover.
- ✓ Your choice of liability limit once we have the prices.
