

ARBORETUM PRIMARY SCHOOL · INTERNAL · 14 SEPTEMBER 2026

Arboretum Playbook

For Hein van Rooyen. Three quotes in, current schedule now legible. One quote has to be benched and the reason is serious enough to put in writing. This pack tells you what to say, what to ask, and what the 1 September briefing got wrong.

RECOMMEND

ONE

R24,093.16, subject to five fixes

BENCH

Hollard

schools exclusions, R1m limit

BENCH

Bryte

no passenger liability, dearest

You can compare now, and I was wrong about three things

The 1 September briefing could not compare, because the Santam schedule was a pure black-and-white scan with the figures gone. **The new scan has 200-plus grey levels and every sum insured is legible.** The premiums are still zeroed out, so there is still no current price. But cover is readable, and cover is what decides a school.

THREE CORRECTIONS TO THE PACK YOU ALREADY HAVE

- 1. ONE's R5m passenger liability is a match, not an upgrade.** The old pack told you to lead with it as better than expected. Santam already gives R5,000,000 on the buses. Do not sell it as an improvement or the client will check and you will lose the room. Sell it as the line ONE holds and two competitors drop.
- 2. Glass at R10,000 and accidental damage at R20,000 are not ONE placeholders.** They are on the current Santam schedule at exactly those figures. Standing gaps, not quote errors.
- 3. Printers at R1,699,778 is not a ONE error either.** Copied from Santam to the rand. Still worth an asset register, but do not put it to ONE as a mistake they made.

WHAT RECONCILES

ONE's schedule is a faithful re-map of Santam's. Electronic equipment plus business all risks comes to **R4,949,898** at Santam and **R4,966,098** at ONE, and the R16,200 difference is the generator, which ONE moved from buildings into all risks. Buildings match at **R45,875,277** exactly. Whoever built the ONE quote worked off the real schedule.

STILL TRUE FROM THE LAST PACK

Do not present a price to the school. We can say what each quote covers and how it compares with theirs. We cannot say cheaper. Anne's instruction on the R30,000 figure stands: it is not off a schedule and we do not build on it.

The cheapest quote has excluded the school

Hollard is R577 a month cheaper than ONE. Here is what that R577 buys, and it is the clearest bench decision in the book this year.

01

► Endorsement LIA_011, the "Schools exception"

No indemnity for any claim arising out of child molestation or sexual abuse of any kind, wrongful or excessive discipline of any kind, or bullying or harassment of any kind. Those three plus pupil-to-pupil are close to the entire liability exposure of a primary school.

"I am not going to quote you a price on a policy that excludes bullying at a primary school."

02

► Pupil-to-pupil liability excluded

Stated in the section memo, separately from LIA_011. Child injures child is the single most likely liability claim a primary school ever makes.

"Your current policy includes pupil liability. This one names it as excluded."

03

► R1,000,000 limit, claims-made, retro = inception

Against R1m plus a R20m top-up today. And a retroactive date of 01 Oct 2026 means every year the school has already operated becomes uninsured for liability on the day it moves.

"Everything that happened before we sign stops being covered. That is the deal."

04

► The umbrella probably cannot attach

Hollard quotes Umbrella Liability R17,500,000. Its own Schedule of Liability Limits requires an underlying limit of R2,500,000. The underlying Combined Liability quoted is R1,000,000. Same defect we found on the Western quote for Powerflow.

Put it to ASI Blue in writing. Do not assume it is a typo in our favour.

05

► No legal defence, no wrongful arrest, no products

Additional Statutory Legal Defence Costs: No. Additional Wrongful Arrest and Defamation: No. Products and Defective Workmanship: No. Santam carries R500,000 and R250,000.

"A school gets accused before it gets sued. Defence costs are the cover you use first."

06

► Employers liability cut to R1,000,000

Santam gives R5,000,000 on a claims-made basis with a retroactive date of 1 April 2008. Eighteen years of tail, gone, and the limit cut by 80 percent.

This one matters for the staff, not the pupils. Say it that way.

TWO HOLLARD PDFS, SAME QUOTE NUMBER

The 10:28 issue was superseded at 11:07 with "corrected Combined Liability to the correct R1m limit". **The premium did not change when the limit did.** Work off the 11:07 file only, and ask ASI Blue what R23,516.03 actually buys if the limit moved without the price moving.

Dearest, and the buses are not covered

Bryte quote QT1029359 via BrokerBuddy Specialised, 3 September, R29,672.78. It reconciles and it is correctly rated as a School. It also has passenger liability switched off on every item.

LINE	SANTAM NOW	HOLLARD	ONE	BRYTE	VERDICT
MOTOR, THE THREE BUSES					
Passenger liability	R5,000,000	not shown	R5,000,000	No	ONE the only match
Third party	R5,000,000	R2,500,000	R5,000,000	R5,000,000	Hollard halves it
LIABILITY					
Limit	R1m + R20m	R1,000,000	R20,000,000	R20,000,000	Hollard 20x short
Pupil and teacher	Included	Excluded	Not shown	Not shown	Ask all three
Employers liability	R5,000,000	R1,000,000	R5,000,000	R5,000,000	Retro 2008 at risk
PROPERTY					
Buildings	R45,875,277 + R9,952,238 uplift	see schedule	R45,875,277	R59,519,555	Uplift missing everywhere
Electronic equipment	R4,765,899	see schedule	R4,280,783	R4,765,899	ONE moved laptops to BAR
Glass	R10,000	see schedule	R10,000	R20,000	Standing gap
Accidental damage	R20,000	see schedule	R20,000	R40,000	Standing gap
All-in per month	removed	R23,516.03	R24,093.16	R29,672.78	

BRYTE'S FLEET DATA IS WRONG IN FOUR PLACES

Quantum **CH07GJZN** coded **10 seat** where Santam says **14**, and seat count drives passenger liability rating. The **Venter Traveller trailer BG75CSZN** is coded as a **2007 Force Traveller 2.6 minibus**. A trailer is dated **1925**. Both Massey Ferguson tractors carry registration "**Required**". Hollard codes the same trailer correctly, so this is Bryte's data entry, not a source problem.

Five to ONE, two to ASI Blue, one to Marsh

TO ONE, BEFORE ANYTHING IS PRESENTED

- ✓ **Name all three entities.** Arboretum Primary School, Arboretum Pre-Primary School and FTRRI. ONE names only the first. A claim by an entity that is not a named insured does not get paid. Open since 1 September.
- ✓ **Retroactive dates on broadform and employers liability.** Employers liability on the current policy runs back to **1 April 2008**. Ask ONE to match it, in writing on the schedule.
- ✓ **Price teacher liability, pupil liability and professional indemnity (teacher and scholars) R1,000,000.** All three are on Santam and on none of the quotes.
- ✓ **Escalation and inflation, R9,952,238.** Santam carries 8.65% and 10% on Waterberry Wood, 10% and 10% on Wag 'n Bietjie. No quote has it.
- ✓ **Inception date.** Still reads 01/01/3000 with payment TBA, and renewal 01/08/2027 against an anniversary of 01/04/2027.

TO ASI BLUE, FOR THE RECORD

- Confirm whether the **R17,500,000 umbrella attaches** over a R1,000,000 underlying when the schedule requires R2,500,000.
- Confirm what changed in the premium when the limit was corrected at 11:07, given **R23,516.03 did not move**.

TO MARSH, OR TO THE SCHOOL

- Ronel Irvine, **Ronel.Irvine@marsh.com, 082 605 8718**. The premium figures are removed from the schedule again. Ask for them, and if the school would rather not share, say so and move on. The cover comparison stands without it.

CARRY ACROSS OR LOSE IT

Leaf Technologies' interest is noted on the Santam electronic equipment section in respect of all items per list, covering the 36 leased Intel NUCs at R499,905. **Government is a co-insurer for the balance of the Waterberry Wood buildings.** Neither appears on any quote. Both must be on the new schedule before inception.

In the room

💬 **"Hollard is cheaper. Why are you not showing me that one?"**

- ✓ "I am showing it to you. I am also showing you that it excludes bullying, excessive discipline, sexual abuse and pupil-to-pupil claims at a primary school, and that its liability limit is one million against twenty. It is five hundred and seventy seven rand a month cheaper. I would not put a school on it, and I would rather tell you that than let you find out at a claim."

💬 **"What are we actually saving?"**

- ✓ "I cannot tell you yet, and I am not going to guess. Your schedule came to us with the premiums removed. What I can tell you is exactly what each of these three covers against what you have, and on the two lines that decide a school, buses and liability, only one of them holds your position. If you give me the current premium I will have the saving to you in a day."

💬 **"Our broker has been with us for years."**

- ✓ "That is worth something and I am not asking you to throw it away. What I would ask is why nobody has ever put fidelity cover in front of you. You collect fees, you run a tuck shop, you hold fundraisers, and there is no fidelity section on your policy or on any of these three quotes. That is not a Marsh failing so much as a gap the whole market has left sitting."

💬 **"Bryte is a big name. Why is it bottom of your list?"**

- ✓ "Because it is five and a half thousand a month more than ONE, and it has passenger liability switched off on all eleven items, including both Quantums and the Iveco. It also has your fourteen seater recorded as a ten seater and a trailer recorded as a 2007 minibus. It is not a bad insurer. It is a quote that has not been built carefully."

CLOSE LIKE THIS

"My recommendation is ONE, at twenty four thousand and ninety three a month, and I am not asking you to sign anything today. I have gone back to them with five items, and the most important is that your pre-primary and FTRRI are named on the policy alongside the primary school. When that comes back in writing I will bring you a corrected pack. If it does not come back, I will tell you that too."
