FLEET INSURANCE PROPOSAL · 7 OCTOBER 2026

155 Vehicles. One Fleet Policy. Five Things to Fix.

A full motor fleet quotation from VAPS Insurance Underwriters, underwritten by Renasa, covering every truck, trailer, bakkie, car and farm vehicle you declared. **We do not yet have your current policy schedule, so this pack judges the quotation on what it covers, not on what it saves.**

● VAPS Insurance Underwriters / Renasa

R219,941.79 a month, line by line

VAPS quotation VAPS54248, printed 7 October 2026, insures your fleet in nine groups rather than vehicle by vehicle. We have added up every line and it ties exactly to the stated total. Broker and administration fees are nil.

MOTOR FLEET R167,277.09 own damage, theft, third party		ROADSIDE ASSIST R23,270.00 85 road vehicles		SASRIA R19,194.70 riot and strike		WINDSCREEN R10,200.00 R15,000 a vehicle

Windscreen cover the same 85 road vehicles, R120 each	85			10,200.00			
All-in per month				219,941.79			

WHY WE CANNOT SHOW YOU A SAVING YET

Your current policy schedule has not reached us. Until it does we cannot say whether R219,941.79 is cheaper or dearer than what you pay, or whether it carries the same cover. **Send us the schedule and we will reconcile the two line by line, to the cent, before you decide.**

WHO IS BEHIND THE QUOTATION

Underwriting manager sets the terms, handles claims	VAPS Insurance Underwriters, FSP 46264
Insurer carries the risk	Renasa Insurance Company Limited, FSP 15491
Your broker	Cartrack Insurance Agency, FSP 17266

WHAT IS PAID OUT OF THE PREMIUM

The premium includes broker commission of **R24,392.04 a month**, disclosed on the quotation as the law requires. VAPS receives a binder fee of 10% of the gross premium from Renasa. There is no broker fee or administration fee on top.

The rates are set per group, so adding or selling a vehicle changes the premium at the annual declaration rather than vehicle by vehicle.

Good extensions, but your loads are not on it

Every vehicle is insured comprehensively, with the extensions below included in the premium. **What is missing matters more for a distributor than what is there.**

INCLUDED IN THE PRICE

Third party, any accident	2,500,000
Third party, fire or explosion	1,000,000
Contingent liability	2,500,000
Unauthorised passenger liability	2,500,000
Parking and moving others' vehicles	1,000,000
Fuel tank spillage the vehicle's own tank	250,000
Towing and salvage	100,000
Wreckage removal · loss of keys	50,000 each
Fire extinguishing charges	35,000
Cross-border towing	20,000
Temporary repairs	15,000
Roadside, per heavy vehicle a year R5,000 on light vehicles	20,000

Territory: South Africa plus Namibia, Eswatini, Botswana, Lesotho, Zimbabwe, Mozambique, Malawi and Zambia.

NOT TAKEN ON THIS QUOTATION

- **Goods in transit.** The cheese on the trucks is not insured by this quotation, and nor is spoilage if a refrigeration unit fails on the road.
- **Excess reducers** on own damage, theft and third party. Without them a truck claim starts at R30,000 (page 4).
- **Increased third party liability.** The limit stays at R2,500,000, and R1,000,000 for fire.
- **Passenger liability**, including on the bus.
- **Credit shortfall** on financed vehicles.
- **Car and truck hire** while a vehicle is off the road.
- **Riot and strike** as an extension (Sasria is included and covers this).

THE ONE THAT MATTERS MOST

You are a distributor. If a truck is hijacked, the vehicle is insured but **the load is not**. If your goods-in-transit cover sits on another policy today, we need to see it. If it does not, it should be priced before anything else is decided.

IF THIS HAPPENS	WHAT THE QUOTATION PAYS	WHAT YOU CARRY
An average truck hijacked with a full load truck R623,571, tracking fitted and working	R623,571 less the 15% excess	R93,536 excess and the whole load
The same truck, no working tracking unit	Nothing	The truck and the load
A truck fire spreads to a warehouse, R3m	R1,000,000	R2,000,000
A collision injures others, R2m	R2,000,000	R7,500 excess

THIRD PARTY: R2,500,000 IS LOW FOR 42 TRUCKS

A loaded truck that causes a multi-vehicle accident on a highway, or a fire that spreads to a building, can exceed R2.5m quickly, and the fire limit is only R1m. Most heavy-fleet policies we place carry **R5,000,000**. We will ask VAPS to price the increase so you can choose.

ALSO OUTSIDE A MOTOR POLICY

This quotation covers vehicles only. Your premises, cold rooms, stock, machinery and your public and **products liability** (essential for a food producer) are not part of it. If they are insured elsewhere, nothing changes. If you would like them reviewed, we can quote the whole account.

The excess, measured against your own claims

No excess reducers are included on this quotation, so the standard VAPS excess applies to every claim.

CLAIM	EXCESS YOU PAY
Truck, trailer or bus worth over R200,000	10% of the claim, minimum R30,000
Truck or trailer worth R100,000 to R199,999	10% of the claim, minimum R15,000
Truck or trailer worth under R100,000	10% of the claim, minimum R10,000
Theft or hijack of a heavy vehicle	15% of the claim, minimum R5,000
Bakkies, cars and SUVs, accident damage	5% of the claim, minimum R2,500
Bakkies, cars and SUVs, theft or hijack	10% of the claim, minimum R2,500
Third party damage	R7,500 heavy · R1,500 light
Driving between 23h00 and 04h00	An additional 5% of the claim
Windscreen	20% of the claim, minimum R500 heavy · R350 light

The claims history you supplied to us adds up to **R3,843,726.04**. Applied to those same claims, the standard excess would have cost you about:

YOUR CLAIMS, AS SUPPLIED	CLAIMED	EXCESS, AT LEAST
Theft and stolen vehicles	1,876,816.18	281,522.43
Own damage, incl. recoveries from third parties	1,711,448.16	171,144.82
Trailer roof struck while parked	170,601.76	30,000.00
Own damage only	27,423.96	2,742.40
Windscreens	57,417.98	11,483.60
Possible third party damage	18.00	–
Total	3,843,726.04	496,893.25

WHAT WE RECOMMEND

Ask VAPS to price the **own damage, theft and hijack, and third party excess reducers**. On a record like yours the reducers are likely to pay for themselves. We will show you their cost against the excess they remove before you decide.

HOW A REDUCER WORKS

You pay the standard excess and the reducer refunds everything above a small fixed "inner" amount. On the VAPS quotations we have placed this year, the reducers bring a truck or trailer excess down to **R5,000** and a light vehicle to **R2,500 or nil**, sized so that even a total loss costs only that amount.

ON A R300,000 TRUCK ACCIDENT

Standard excess	30,000
10% of R300,000, minimum R30,000	
With a reducer, typical inner excess	5,000
Driving at 03h00, standard	45,000
plus 5% of the claim	

HOW WE WORKED THIS OUT

The claims figures are totals by type, not claim by claim, so we applied each percentage to the total and the R30,000 minimum to the trailer claim. Minimums per claim would raise the figure. Where a claim is later recovered from the other party, the excess is normally refunded, which lowers it. The 23h00 to 04h00 loading is not included; if your trucks leave before dawn it adds another 5% to those claims.

Five things to put right before cover starts

ITEM	WHAT THE QUOTATION SAYS	WHAT HAS TO HAPPEN
1. Tracking a condition, not a discount	No theft or hijack claim is paid on a vehicle worth over R200,000 unless an approved tracking unit with recovery was fitted, working, paid up and monitored 24 hours a day. Heavy vehicles over R800,000 on medium and long haul need two-camera video telematics. Trailers over R200,000 need their own trailer tracking unit.	Evidence vehicle by vehicle before inception. R1,876,816 of your claims were theft.
2. Agreed value	You asked for agreed values, but the quotation does not state agreed value anywhere. The wording then settles on retail value at the date of loss.	Agreed value written onto the schedule, per vehicle, from your fleet list. It may not exceed retail plus 20%.
3. No vehicle list	The fleet is insured as nine groups with a count and a total. No registrations, no individual values. At each anniversary you declare the number of vehicles and the premium is adjusted.	Your fleet list attached to the schedule, so every vehicle and its value is on record.
4. Your details	Name printed as "Impact Distributots" ; business described as "Transport Contractor" ; registration and VAT numbers blank; start date 1 October 2026 , already past.	Correct name, a description that says you distribute your own food products, company numbers, a new start date.
5. Claims record	The price is subject to three years of written claims from your current insurer, and may change if it does not match.	Your current insurer's written claims history, so the price can be confirmed as firm.

QUESTIONS ABOUT HOW YOU OPERATE

- **What time do the trucks leave?** Driving between 23h00 and 04h00 adds 5% to the excess.
- **What are the 18 "special types"?** Forklifts, refrigeration units or plant? It affects how they are rated.
- **Who rides in the bus?** If it carries staff, passenger liability should be added.
- **Do you carry anyone else's goods for payment?** If so, the business description must say so.
- **Where are the vehicles parked overnight**, and are they under cover?

THE DOCUMENTS VAPS NEEDS TO ACTIVATE

- ☐ Quotation signed on each page
- ☐ 3 years written claims history
- ☐ VIN, registration and engine numbers
- ☐ VAPS application form
- ☐ Bank confirmation letter
- ☐ Fleet list with agreed values

TRACKING REQUIRED, BY GROUP	UNITS	AVERAGE	WHAT VAPS REQUIRES BEFORE IT PAYS A THEFT CLAIM
Heavy commercial vehicles	42	623,571	Tracking with recovery; two-camera video telematics on any over R800,000 on medium or long haul
Trailers	32	604,563	A trailer tracking unit with a two-year battery on each one over R200,000
SUVs	19	610,211	Tracking with recovery
Special types, bus	19	245,000	Tracking with recovery on any over R200,000
LDVs, cars, tractors	31	168,000	VESA level 3 or 4, or a factory alarm or immobiliser; tracking on any over R200,000

QUOTATION VALIDITY

The quotation is valid for 30 days from 7 October 2026, so until about **6 November 2026**.

Your schedule first, then a final figure

WHAT WE WILL CLOSE BEFORE YOU SIGN

- 1 Your current policy schedule**
So we can show you, line by line, whether this quotation saves money and whether it holds every cover you have today.
- 2 Goods in transit**
Confirm where your loads are insured today. If they are not, VAPS prices it, with deterioration cover for refrigeration breakdown.
- 3 Excess reducers and third party**
Priced by VAPS so you can see what they cost against the excess they remove, and third party lifted to R5,000,000.
- 4 Agreed values and the fleet list**
Every vehicle on the schedule with its agreed value, and your details corrected.
- 5 Tracking evidenced, then we place it**
Proof of a working, monitored unit on every vehicle that needs one, then a start date timed so there is no gap and no double debit.

AS QUOTED

R219,941.79

a month for 155 vehicles insured at R67,419,000. The additions above will change this figure; you will have the final number in writing first.

THE GAP TO CLOSE FIRST

Your loads

No goods-in-transit cover on this quotation. For a food distributor that is the cover most likely to be needed.

elizabeth.schlebusch@cartrack.com

IN ONE SENTENCE

VAPS has quoted your whole fleet with sound extensions and roadside on every road vehicle, and we will recommend it once goods in transit, excess reducers and agreed values are added and we have checked it against the policy you hold today.

Quotation printed	7 October 2026
Quotation valid until	about 6 November 2026
Start date on the quotation already past, to be reset	1 October 2026
First renewal	1 October 2027

YOUR RECORD OF ADVICE

Replacing a policy means any reduction in cover must be disclosed to you in writing before you decide. We cannot list those reductions until we have seen your current schedule. They will be set out for you before you are asked to sign.
