INSURANCE REVIEW · 17 OCTOBER 2026

Bakers Group Insurance Review

ONE has now quoted your whole fleet and your goods in transit. **On the motor it is the first market to come in below OUTsurance, by R4,407 a month. This review shows what that saving buys, what it leaves out, and what we recommend.**

MOTOR TODAY	BEST MOTOR QUOTATION	DIFFERENCE
R173,332/mo	**R168,926/mo**	**–R4,407/mo**
OUTsurance, two policies, 215 vehicles	ONE, the same 215 vehicles	before cross-border and pollution cover

MARKETS APPROACHED

- ONE / OMART
- Alpha
- New National / Nautical
- Envirosure / Centriq
- OUTsurance, in force
- Santam, in force

WHAT YOU PAY, AND WHAT THE MARKET HAS QUOTED

Three motor prices for the same 215 vehicles, reconciled to the cent

Your motor sits on two OUTsurance policies, **OT78078997** (185 items) and **OT89649119** (30 items). ONE has quoted all of it on a single policy, **HCV/1304264**, underwritten by Old Mutual Alternative Risk Transfer Insure. Alpha's quotation of September is shown for completeness.

OUTSURANCE, TODAY	ONE, QUOTED	ALPHA, QUOTED	ONE AGAINST TODAY
R173,332.46	**R168,925.66**	**R191,938.68**	**−R4,406.80**
R2,079,990 a year	R2,027,108 a year	R2,303,264 a year	about R52,882 a year

SECTION, PER MONTH	OUTSURANCE, TODAY	ONE	ALPHA
Trucks and heavy commercial 54 at OUTsurance, 55 at ONE and Alpha	R97,494.08	R92,155.75	R92,567.83
Trailers 124 on every document	R25,670.74	R25,426.76	R23,694.10
Cars and light commercial 37 at OUTsurance, 36 at ONE	R16,581.54	R18,955.27	R11,091.06
Towing, clean-up and other additions carried inside the vehicle rates at OUTsurance and ONE	included	included	R33,074.16
Public liability R11,664,000	R1,853.59	R1,200.00	not quoted
Policy fee	none	R100.00	included
Sasria a statutory rate on declared values	R31,732.51	R31,087.88	R31,511.54
All in, per month	**R173,332.46**	**R168,925.66**	**R191,938.68**
Against today		−R4,406.80	+R18,606.22

✅ THE SAME FLEET, CHECKED ONE REGISTRATION AT A TIME

We matched every registration on the ONE quotation against your two policies. **All 215 are there, none is missing and none has been added.** Your two MAN TGA trucks are third party only on both sides, as they are today. The insurers group a handful of vehicles into different classes, which is why the counts per row differ by one.

WHAT THE R4,406.80 IS MADE OF

Vehicle sections **−R3,208.58**, public liability **−R653.59** for the same R11,664,000 limit, Sasria **−R644.63**, less a R100 policy fee. ONE is cheaper on the trucks and trailers and dearer on the cars. **The question is what sits inside those rates, which is the next page.**

ONE AGAINST WHAT YOU HOLD TODAY

Where ONE is better, where it is worse, and what it leaves out

A lower price only helps if the cover underneath it is the same. On a fuel fleet that crosses borders, two covers decide it: liability outside South Africa, and pollution.

COVER	OUTSURANCE, TODAY	ONE, QUOTED
Liability outside South Africa you cross borders on every fleet	**Extended territories** bought on all seven fleets, R15,611.75 a month	**"Cross border liability cover: No"** on all 215 vehicles
Pollution liability the loss that decides a tanker fleet	**R5,000,000 per truck** on 52 trucks, R3,483.84 a month	**Spillage and leakage, limit not stated**, R34.50 a truck, no pollution liability section
Basic excess, trucks	**R11,400 to R26,640**	**Flat R30,000**, and the wording reads 5% of vehicle value
Accidents between 23:00 and 04:00	no loading	**a further 5% of the claim**, trucks and trailers
Basic excess, trailers	R5,720	**R5,000**
Basic excess, cars and light commercial	R6,840 to R9,320	**R5,000**
Third party, trucks and trailers	R5,000,000	R5,000,000, excess R5,000
Theft or hijack with a tracker	Cartrack named on the approved list	10% of vehicle value, **nil only with ONE's own tracking product**
Public liability R11,664,000 on both	R1,853.59, excess R8,020	**R1,200.00, excess R2,500**
Hazardous materials	excluded on both schedules (page 04)	no exclusion printed, but "goods carried" reads **TBA**

⚠ THE SAVING IS SMALLER THAN WHAT IT LEAVES OUT

ONE is **R4,406.80 a month** cheaper. OUTsurance charges **R15,611.75 a month** for the cross-border cover ONE has not included, and **R3,483.84** for pollution cover ONE does not match. We have asked ONE to price both. **Until it does, the R4,407 is not a like-for-like saving**, and on a truck claim you would pay up to R18,600 more in excess.

AND THE BONUS YOU WOULD GIVE UP

Your two OUTsurance policies project a **Business OUTbonus of R562,632.03**, paid on 27 February 2028 and 7 August 2028. Moving the motor forfeits it. **At R52,882 a year, ONE's saving would take ten and a half years to earn that back.**

BEFORE ANY OF THAT IS READ AS A PRICE

Both your motor policies say they do not cover vehicles carrying hazardous materials

Both OUTsurance schedules record your business as **"Service & Repair, Transport, Goods"** and both print this under Fleet special conditions:

FROM YOUR OWN SCHEDULES

"OUTsurance does not provide cover in the following instances:
* for code 4 (demolished) vehicles
* when the vehicle transports money
*** when the vehicle transports hazardous materials**
* when the vehicle transports people ..."

The goods in transit submission prepared for you on 14 September describes what you carry as:

⚠ FROM THE GOODS IN TRANSIT SUBMISSION

"General Goods, **Diesel, Petrol, Illuminated Paraffin, Jet Fuel**, FMCG, Scrap Metal and Scrap Batteries."

Diesel, petrol, paraffin and jet fuel are hazardous materials. On the face of these documents, the vehicles carrying them sit outside the motor policies that are supposed to cover them.

AND THE CONTRADICTION IS IN THE INSURER'S OWN WORDS, TWICE

The same schedules sell you **environmental impairment liability of R5,000,000 per vehicle** on 52 of your trucks. The conditions attaching to that cover read:

"owners, drivers and operators must be familiar with legislation and other requirements relating to **the transport of dangerous substances and goods** ... a **professional driving permit for vehicles transporting dangerous goods** will also be required."

One page excludes hazardous materials. Another prices dangerous goods liability and tells you which permits your drivers must hold. Both are on the same document.

HOW ONE TREATS THE SAME LOAD

ONE's goods in transit quotation names your cargo as diesel, petrol, paraffin and jet fuel and accepts it in writing, on condition that it moves under SANS and road traffic rules, in licensed vehicles, with experienced drivers. Its motor quotation prints no hazardous materials exclusion, but records **"goods carried: TBA"**. If ONE is ever taken forward, the fuel must be declared on the motor proposal before anything is signed.

WHAT WE HAVE ASKED FOR

A written confirmation from OUTsurance, reflected on both schedules, that either the hazardous materials exclusion does not apply to your fleet, or that it does.

We are not asking you to change anything on the strength of this. We are asking you not to decide anything until it is answered. 215 vehicles and a projected bonus of R562,632 turn on the answer, and so does the size of the spill cover you need to buy.

THE COVER THAT DECIDES A TANKER FLEET

Spill clean-up: you have more than we thought, and less

On a general freight fleet the decisive cover is the third party limit. On a tanker fleet it is what pays to clean up a spill, because that is the loss that runs into millions before anyone has counted the vehicle.

	LIMIT	VEHICLES	MONTHLY
OUTsurance OT78078997 claims made, retroactive to 1 January 2025	**R5,000,000 each**	26 trucks	R895.33
OUTsurance OT89649119 claims made, retroactive to 30 June 2026	**R5,000,000 each**	26 trucks	R2,588.51
ONE, quoted spillage and leakage liability, R34.50 a truck	not stated	53 trucks	R1,828.50
Alpha, quoted clean-up costs, leakage from vehicle	R1,000,000	heavy commercial only	**R11,000.00**
What you hold today, across both policies	**R5,000,000 each**	**52 trucks**	**R3,483.84**

✅ THE COVER YOU ALREADY HAVE IS FAR BETTER THAN THE QUOTED REPLACEMENT

R5,000,000 a vehicle on 52 trucks for R3,483.84 a month, against R1,000,000 for R11,000.00 a month. Three times the price for a fifth of the limit. **ONE's spillage extension does not state a limit at all**, and its goods in transit quotation excludes pollution liability outright. Both have been sent back.

⚠ BUT THERE IS A HOLE IN IT, AND IT IS ON YOUR SIDE TOO

Not one of your 124 trailers carries pollution cover, on either policy. Every trailer item shows third party liability of R5,000,000 and nothing else. Neither quotation closes that gap.

On a tanker fleet the product is in the trailer, not the horse. A spill from a tanker trailer may fall outside an extension written only against the truck. We flagged this as a weakness in the quotation. Having now read your own schedules, it is a weakness in what you hold.

THE PRODUCT THAT ANSWERS IT, NOW QUOTED

Envirosure Spill Protect Plan, Transport, underwritten by Centriq, R15,890.00 a month. Cover for the exact goods you carry, diesel, petrol, illuminated paraffin, jet fuel, general goods, scrap metal and scrap batteries: **transportation of dangerous goods R5,000,000**, third party liability solution R5,000,000, riot and strike R2,500,000, transfer assist R250,000, side tank R150,000. **Excess nil inside and outside South Africa**, except a flat R10,000 on third party liability claims. 27 specified vehicles.

We are not putting that price in front of you yet, because if your existing R5,000,000 per truck stands, this largely duplicates it on the trucks and what you actually need priced is the trailers. We have asked for both versions. **The answer on page 04 decides which.**

ACT ON THIS ONE REGARDLESS

The Envirosure quotation is dated 14 August and was valid until 14 September. That date has passed. It needs reconfirming before any version of it is presented.

GOODS IN TRANSIT

Three prices on the same R50,000,000 carry, and one clear choice

All three are built on the same **R50,000,000 annual carry** and the same **R1,620,000** limit on any one load.

	BASIS	MONTHLY
Santam Specialist Marine, today AMDBLE265448M	R50,000,000 at 1.00%, R500,000 a year	**R41,666.67**
New National Assurance via Nautical Underwriting Managers	R50,000,000 at 0.90%, plus Sasria R1,712.15	**R39,212.15**
ONE / OMART MARN/1305840	R50,000,000 at 0.88%, plus Sasria R856.00 and a R50 fee	**R37,572.67**

LIMIT	SANTAM, TODAY	NEW NATIONAL	ONE
Any one load	R1,620,000	R1,620,000 ✓	R1,620,000 ✓
Driver fidelity a driver who disappears with the load	**R1,620,000**	**R1,620,000** ✓	**excluded**
Tarpaulins, nets, ropes, chains	R25,000	R25,000 ✓	**R15,000**
Salvage and debris removal	R25,000 each	R25,000 and **R30,000**	**R25,000 combined**
Contamination of the load	per wording	per wording	**excluded**
Excess, general and hijack	10% min R10,000 · 25% min R25,000	the same ✓	the same ✓
Extra excess on high value loads	none	**25% min R25,000** over R1,000,000	**none**
Territory	RSA and three neighbours	**twelve countries**	**SADC**, DRC to Kolwezi
Who is insured	all three companies	**Bakers Tankers only**	**Bakers Bulk only**

⚠ WHY ONE IS NOT THE CHOICE YET, ALTHOUGH IT IS THE CHEAPEST

It excludes driver fidelity, which both other policies give at the full R1,620,000. On a fuel load that is the loss most worth insuring. **Its price is not yet confirmed**: we have asked ONE to reissue it, and we expect it to move. It also requires a working satellite tracker on **every truck and every trailer** as a warranty, and a breached warranty means a refused claim. None of your 124 trailers has a tracker recorded today.

✅ OUR VIEW ON GOODS IN TRANSIT

New National stays our recommendation, about R29,454 a year cheaper than today, once all three companies are named and the high value load excess is confirmed not to catch your scrap metal and battery loads. ONE would overtake it only by adding driver fidelity, naming all three companies and confirming its price.

WHERE THIS LEAVES YOU

What we recommend, and the four things worth more than the re-market

YOUR PROGRAMME, PER MONTH	MOTOR	GOODS IN TRANSIT	TOTAL
Today OUTsurance and Santam	R173,332.46	R41,666.67	R214,999.13
Recommended OUTsurance and New National	R173,332.46	R39,212.15	**R212,544.61** **-R2,454.52**
Everything at ONE, as quoted before cross-border, pollution and fidelity are added	R168,925.66	R37,572.67	R206,498.33 **-R8,500.80**

WHY WE ARE NOT RECOMMENDING THE CHEAPEST LINE

The full ONE programme is **R8,500.80 a month** below today on paper. To get there you would give up liability cover outside South Africa, pollution cover of R5,000,000 per truck, driver fidelity on your loads, lower truck excesses, and **R562,632.03 of projected OUTbonus**. We would rather tell you that now than after a claim.

WHAT WE FOUND ON YOUR OWN SCHEDULES	WHERE IT STANDS	WHAT IT IS WORTH
Tanker trailer values nine tankers insured at R56,047 each, one 2017 unit at R729,000, six at R1,293,750	copied onto every quotation	**the largest single exposure in the file**
Three vehicles with no theft cover tracking recorded as required and not installed	live today	**fix this week**
No pollution cover on any trailer 124 of them, on both policies	standing gap	**page 05**
No defective products or workmanship cover your own insurer recommends it in writing and it is not selected	not quoted anywhere	**on R150m of turnover**

OUR RECOMMENDATION

1. **Keep the motor.** Stay at OUTsurance for now. ONE is the closest the market has come, but its saving does not yet cover what it leaves out, and leaving forfeits R562,632.
2. **ONE prices the gaps.** Cross-border liability, pollution liability on trucks and trailers, and the truck excess. If it still comes in below OUTsurance with those in, we will bring it back to you, and the bonus dates tell us when a move costs nothing.
3. **Hazardous materials.** Get OUTsurance's answer in writing. It is the one thing that could change all of the above.
4. **Goods in transit.** Move it to New National once all three companies are named.
5. **Tanker values.** Have the trailers valued before anything is signed with anyone.

SMALLER THINGS WE WILL CLEAN UP

Your address appears as **15 Nereeniging Road, Alberton 1449** on one policy and **15 Vereeniging Road, Alberton 1451** on the others. **Your VAT number is blank on both OUTsurance schedules and on both ONE quotations**, so none of them can serve as a tax invoice. Every quotation names only one of your three companies. Neither ONE quotation has an inception date. None of these change the advice, all of them should be right before anything is signed.
