CARTRACK INSURANCE

RM EYES ONLY
DO NOT HAND TO THE CLIENT

RM PLAYBOOK · RISING SUN PRINTERS · HEIN VAN ROOYEN · 17 OCTOBER 2026

R161m of Presses. No BI. R100k Excess.

Old Mutual Multisure via CDK Events Solutions. **No competing quote yet, and the premiums on the copy are wiped.** So this file wins on what we found, not on price: a survey penalty live today, no business interruption on a R161m plant, and a broker who never fixed either.

PROJECTED PREMIUM	PENALTY EXCESS TODAY	CARTRACK LEAD
R60k–R70k	**R100,000**	**6 units**
range R45k to R77k; Sasria R6,571 known	two premises, until survey cleared	plus 9 on Tracker

- 05 Moves

Internal Cartrack document, FSP 17266 · RM Hein van Rooyen · not for circulation to the client or the insurer

READ BEFORE YOU SPEAK TO THE CLIENT

PLAY 01

Win on the findings, not the price

We have no number to beat yet: the premium summary and commission disclosure on the copy are wiped mid-figure, and FSP (Meldon) has not quoted. **Don't quote a saving.** Lead with two things the current broker should have fixed and didn't.

1. **The R100,000 excess.** Old Mutual's survey requirements at 13/15 and 16 Rising Sun St are outstanding, so every damage claim there carries 10% min R100,000 instead of R25,000. Ask: "Weet julle daarvan?" Most clients don't.
2. **No business interruption.** R93.7m of plant and stock at one address. A fire stops the business, and nothing pays salaries, rent or lost profit. Ask for turnover and gross profit; that is the BI quote.
3. **No machinery breakdown, no power surge.** Presses break down internally far more often than they burn. Surge is switched off, and grid failure is excluded across the policy.
4. **Get the real premium.** Debit order amount, or the original PDF from Old Mutual. Without it we can't show a saving.
5. **Then the market.** Like for like plus BI, MB and surge as options. Keep the PL retro date of 1 July 2003.

THE QUESTION THAT SELLS THE FILE

"As 16 Rising Sun Street afbrand, hoe lank tot julle weer druk?"

Whatever they answer, the current policy pays for the presses and stock and nothing for those months.

WHO YOU ARE UP AGAINST

The broker of record is **CDK Events Solutions (Pty) Ltd**, agency 8669368. The name reads like an events business, so check its FSP status before the meeting. Don't attack them; let the outstanding survey and the missing BI make the point.

Every section, every limit

SECTION	SUM INSURED	DETAIL THAT MATTERS
Fire, cols 3 & 4 plant, machinery, stock	161,525,678	13/15 Rising Sun R34,720,678 · Village Deep R33,067,312 · 16 Rising Sun R93,737,688. **No buildings (col 1) SI.** Basic excess R25,000. Bursting, power surge, riot **No**; memo grants surge R25k/event, R50k aggregate. Pallet warranty 150mm.
Motor, 16 items	5,972,225	Land Cruiser 300 R1,605,000 · Hino 500 R745,100 · Defender R685,925 (**R320,000 unspecified extras**) · S350 R373,600 · 2 BAIC R365,325 · 3 Hilux R321,225 · Isuzu FTR R284,850 · Tiggo R283,425 · Hino 300 R116,400 · Dyna R101,400 (cover B, VIN zeros) · forklift R65,000 · Fiat Uno R17,200.
Motor liability	2,500,000	**(a)+(b) aggregate R2.5m**: passenger and any other event together. Unauthorised + passenger R2.5m on 10 cars. +R5,000 compulsory excess on all vehicles from renewal; no-tracker theft +R5k/+R10k on commercials.
Business all risks	2,093,000	3 generators R500k/R500k/R1m, **make, model and serial "required"** · cameras R68,000 · TV R7,000 · **iPhone 7 R18,000**.
Office contents	1,435,160	R454,164 / R490,498 / R490,498; theft forcible entry R51,300; power surge No.
Public liability	10,000,000	Claims-made, **retro 1 July 2003**. Spread of fire and work away R3m each; R3m per location. Locations listed as **Peak Street** (13/15/16 and 24–28), not Rising Sun Street.
Sasria	6,570.91 pm	Fire material damage R6,479.92 + motor R90.99. The only legible premium.
Value-added	R0.00	Swiftcare roadside and office assistance. Broker fee R0.00.

DATA ERRORS TO FIX WHEREVER IT LANDS

Memo says "Nissan 1400 (NX7885)": NX7885 is the Land Cruiser · memo refers to a 2010 Toyota forklift not on the schedule · Dyna VIN and engine all zeros · no reg or VAT number for the insured · period printed 28/07/2026 to 31/08/2026 against anniversary 01/07/2027.

EXCLUSIONS TO KNOW

Electricity grid interruption (incl. load-shedding surge) and national grid failure excluded on every section · cyber and data losses excluded · communicable disease excluded.

WHAT THEY PROBABLY PAY TODAY

PLAY 03

Projection: R60,000 to R70,000 a month

The premium summary (p3) and the FAIS disclosure (p4) are blank in the middle of every figure on the scan itself; no enhancement recovers them. So this is an estimate from the sums insured. **Never give it to the client as their premium.**

SECTION	BASIS	LOW	LIKELY	HIGH
Fire R161.5m printing works, flammables on site	0.15% to 0.30% pa	20,191	26,921	40,381
Motor R5.97m our recent quotes 2.8% to 4.0%	2.8% to 4.0% pa	13,935	16,921	19,907
Business all risks R2.09m	2% to 4% pa	3,488	5,233	6,977
Office contents and theft		400	550	750
Public liability R10m		800	1,500	2,500
Sasria from the schedule	known	6,571	6,571	6,571
Total per month		**45,385**	**57,696**	**77,086**

WHAT THE FADED DISCLOSURE HINTS AT

Fragments on p4 look like **broker commission about R10,xxx** and a retained premium in the **R50,000s** ending "...65". At a blended 16% to 18% commission that is a premium of about R60,000 before Sasria, so **R65,000 to R70,000 all-in**. Unconfirmed.

HOW TO GET THE REAL NUMBER

1. Client's bank statement: the Old Mutual debit is the all-in premium.
2. Original PDF from Old Mutual (copy policy on D1/M/08/MSURE/6882331), not a printed scan.
3. Premium summary page from CDK.

WHEN THE REAL PREMIUM COMES BACK	WHAT IT TELLS YOU
Under R50,000	Cheaply placed; the market will struggle to beat it on price. Sell the cover gaps and the survey, and quote BI and MB as additions.
R55,000 to R70,000	As projected. A like-for-like re-market can compete; the survey clearance is the lever on the fire rate.
Over R75,000	Fire is likely loaded for the open RRs or the claims record. Strongest case to move once the survey is cleared; ask for the claims history.

WHY FIRE SWINGS THE RANGE

Fire is about half the premium and the rate depends on the survey. With the RR items open, Old Mutual may be rating it at the top of the range; once they are cleared, a new insurer may rate it lower. **Clearing the survey is worth money in the quote, not just in the excess.**

WHAT FSP MUST QUOTE, AND WHAT THE CLIENT MUST FIX

PLAY 04

Brief Meldon properly the first time

ASK FSP / MELDON TO QUOTE	WHY
Like for like	Fire R161,525,678 over 3 premises, motor 16 items R5,972,225, BAR R2,093,000, office contents R1,435,160, PL R10m. Send the schedule pages, not a summary.
Retro date 1 July 2003	PL is claims-made with 23 years of tail. A new retro date = every past job uninsured.
Business interruption	Gross profit basis, 12 to 18 months indemnity. Needs turnover and GP from the client.
Machinery breakdown	On the presses; ask for MB loss of profits as an option.
Power surge	On fire section plant, with a proper limit (today memo R25k/event).
Motor TP R5m	Today R2.5m aggregate including passengers, on a fleet with two Hinos and an Isuzu FTR.
Electronic equipment, GIT	Pre-press gear; finished goods on their own trucks.
Buildings	Only if they own any of the three properties.

SURVEY RRS, OPEN TODAY

13/15 Rising Sun: guard-patrol monitoring to external company · fire alarm means · hydrant signage.
16 Rising Sun: obstructed hose reel on the printing floor · out-of-date firefighting equipment · **no flammable liquids permit** · hot work permit · 2.5m aisles · stock under lights.
Punitive excess **10% min R100,000** until cleared. Any new insurer will survey and want the same.

THE CARTRACK LEAD

Tracker (the brand) on 9 vehicles: Land Cruiser, Hino 500, Isuzu FTR, Tiggo, 2 BAIC, 3 Hilux. **No tracker on 6:** Mercedes S350, Defender (R685,925), Fiat Uno, Dyna, Hino 300, forklift. Six units now; the 9 Tracker units are a conversion conversation once the insurance is ours.

ALSO ASK THE CLIENT

- Who owns the buildings?
- Turnover and gross profit
- 3 years' claims
- Generator make, model, serial
- What is at 24–28 Peak Street?

WHAT YOU DO NOW

Your moves, in order

PLAY 05

1. **Get the real premium**
   Debit order amount or the original Old Mutual PDF. Nothing goes to the client as "your premium" until then.
2. **Brief Meldon with Play 04**
   Like for like plus BI, MB, surge and TP R5m as options; retro 1 July 2003; send all 24 schedule pages.
3. **Give the client the review**
   The 5-page client document: what they have, the R100,000 excess, the gaps. No price in it.
4. **Help them clear the survey**
   Most of it is maintenance and a permit. It removes the penalty now and improves the fire rate in the quote.
5. **Quote lands: send it to Anne**
   Full comparison, client proposal and playbook, against the confirmed premium.
6. **Tracking**
   6 untracked vehicles: quote Cartrack units alongside the insurance.

💬 **"Ons is gelukkig met ons broker."**

✓ "Goed so. Maar wis julle daar is nou 'n R100,000 excess op enige brandskade by twee van julle persele, omdat die survey items nie afgehandel is nie? En as die drukkery afbrand, betaal die polis vir die masjiene maar nie vir die maande wat julle nie kan druk nie. Ek wil net seker maak julle weet dit."

💬 **"Wat gaan dit kos?"**

✓ "Ek kry eers julle huidige premie, dan gaan ek mark toe vir presies dieselfde cover, en apart vir business interruption en machinery breakdown, sodat julle kan sien wat elkeen kos voor julle besluit."

SEND THE CLIENT TODAY

"Môre, ons het julle Old Mutual polis deurgegaan. Kan julle asb vir ons die maandelikse debit order bedrag stuur, of die oorspronklike polis-PDF wat Old Mutual ge-epos het? Die premies is uitgewis op die kopie wat ons het. Ons wil ook graag julle omset en bruto wins hê om business interruption te kwoteer."

SEND MELDON TODAY

All 24 schedule pages plus: like for like; options for BI (GP basis, 12 to 18 months), machinery breakdown on the presses, power surge, motor TP R5m; PL retro 1 July 2003 retained; three premises listed with sums insured per premises.

BOTTOM LINE

This is a cover sale before it is a price sale. A R171m printer with an open survey penalty, no BI and no machinery breakdown is under-served, whatever it pays. Show them that, get the premium, then let the quote do the rest.
