MOTOR INSURANCE REVIEW · 17 OCTOBER 2026

Skip-a-Way Motor Insurance Review

Your Santam motor policy set against King Price's reissued quotation through VAPS of 30 September. On the ten vehicles you insure today the price is level, within R48.56 a month. The quotation reads higher because it adds your 8,000 litre diesel tanker and its load. **The tanker now has goods in transit and a R5,000,000 third party limit. It still has no cover for a spill of its load.**

YOU PAY TODAY	KING PRICE, SAME TEN	DIFFERENCE
R8,429.80/mo	**R8,478.36/mo**	**+R48.56/mo**
Santam, 10 vehicles	as quoted for all 11: R12,455.27	the tanker and its load add R3,976.91

MARKETS COMPARED · R1,979,285 OF VEHICLES

Santam, your current insurer

King Price / VAPS Insurance Underwriters

EXECUTIVE SUMMARY · THE DECISION IN ONE PAGE

Move for service, not for price, and cover the tanker properly first

You pay Santam **R8,429.80** a month on policy 10000049349 for ten vehicles. King Price, through VAPS, now quotes **R12,455.27** for eleven (reissued 30 September). The eleventh is your FAW diesel tanker, which is not on the Santam policy, and with its load it accounts for the whole difference. Take it out and the two are **R48.56 a month apart**, and that R48.56 buys a R5,000,000 third party limit on the Fuso.

SANTAM, CURRENT	VAPS, AS QUOTED	VAPS, SAME TEN	THE TANKER AND ITS LOAD
R8,429.80	**R12,455.27**	**R8,478.36**	**R3,976.91**
10 vehicles, R1,479,285	+R4,025.47, 11 vehicles	+R48.56 a month	R500,000 truck, R200,000 load

Spill of the diesel load Dangerous goods are excluded from the spill extension.	tanker not insured	not covered	FIX
Verdict	**benchmark**	MOVE, ONCE FIXED	

RECOMMENDATION

Price is not a reason to move, and it is not a reason to stay. VAPS gives you better roadside assistance, windscreen cover and excess reducers for the same money on the ten vehicles you already insure. If you want to move, VAPS works, **but not with the tanker as it is quoted.** VAPS has now added goods in transit and a R5,000,000 third party limit to the tanker. We will get pollution liability added, and a Santam price for the tanker so you can compare eleven against eleven, before you sign anything.

REASONS TO MOVE

- ✓ **Roadside that works for a truck:** R20,000 a year each on the Fuso and the tanker, towing up to 250 km, accident management and no storage or release fees.
- ✓ **Excess bought down** to R5,000 on the trucks and trailer, R2,500 or nil on the light vehicles, even on a total loss.
- ✓ **Third party damage excess nil** on every vehicle except the trailer.
- ✓ **The tanker and the rest of the fleet on one policy**, one renewal date, one claims line.

REASONS TO WAIT

- **The tanker** still has no cover for a spill of its load, and the R5,000,000 limit must be confirmed to include a fire.
- **The quotation's start date of 1 October has passed** and it lapses at the end of October.
- **Four vehicles need tracking with recovery** before theft and hijack cover applies.
- **We have three of the 72 Santam pages.** Santam's limits and most of its excesses are still to be compared.

PROOF OF A LIKE-FOR-LIKE COMPARISON

Reconciled to the cent, vehicle by vehicle

Every vehicle on your Santam policy appears on the VAPS quotation at the **same value, to the rand**. For each one we have added the VAPS premium, its excess reducers, windscreen and roadside, so the figures below compare the whole cost of each vehicle. Sasria is shown separately.

VEHICLE	REGISTRATION	VALUE	SANTAM	VAPS	MOVEMENT
Fuso FK13-240 F/C C/C 2014 · heavy commercial · incl. R5m third party, R75	CZ74MNGP	350,000	1,393.43	2,252.92	+859.49

FAW tanker, 8,000 litre diesel With its R200,000 load in transit, R5m third party and Sasria R248.41. Not on the Santam policy.	HH10SGGP	500,000	–	3,976.91	+3,976.91
All-in, as quoted		**1,979,285**	**8,429.80**	**12,455.27**	**+4,025.47**

WHAT WE HAVE WORKED FROM

Santam's payment breakdown, policy schedule and vehicle list (pages 1, 11 and 12 of the 72-page schedule dated 4 September 2026) and the full 42-page VAPS quotation VAPS53947 as reissued on 30 September 2026. That is enough to reconcile both prices to the cent. **Where a Santam limit or excess is not on those pages we say "to be confirmed" rather than guess.**

WHERE THE MONEY GOES · AND WHAT YOU PAY ON A CLAIM

A cheaper base rate, spent on better extras

King Price's basic motor premium on your ten vehicles is **R4,413.52 against Santam's R8,056.18**, little more than half, and that includes a R5,000,000 third party limit on the Fuso. VAPS then adds excess reducers, windscreen cover and a proper roadside product, and lands at the same monthly figure. You are not buying a thinner policy for less; you are buying more for the same.

SECTION	SANTAM (10)	VAPS (SAME 10)	VAPS TANKER	VAPS AS QUOTED
Motor, comprehensive Own damage, theft, third party.	8,056.18	4,413.52	1,741.67	6,155.19
Own damage excess reducer	–	994.00	500.00	1,494.00
Theft and hijack excess reducer	–	443.70	187.50	631.20
Third party excess reducer	–	300.00	60.00	360.00
Windscreen cover Santam: glass inside comprehensive.	included	1,080.00	120.00	1,200.00
Roadside and value added services	104.00	990.00	350.00	1,340.00
Goods in transit, diesel R200,000 load, with excess reducers R231 and 24/7 assist R105.	–	–	769.33	769.33
Other policy premium	10.14	–	–	–
Sasria	259.48	257.14	248.41	505.55
Broker and administration fees	0.00	0.00	0.00	0.00
All-in per month	**8,429.80**	**8,478.36**	**3,976.91**	**12,455.27**

The excess is the part of every claim you pay yourself. VAPS charges a high standard excess and then buys most of it back with the reducers above.

EXCESS YOU WOULD PAY	SANTAM	VAPS, WITH REDUCERS	VAPS STANDARD
Fuso and tanker, accident damage	to be confirmed	R5,000	10%, min R30,000
Trailer, accident damage	10%, min R1,000	R5,000	10%, min R15,000
Trailer, theft or hijack	10%, min R1,000	R5,000	15%, min R5,000
Hyundai, Hilux, Mahindra, Prado, SLK	to be confirmed	R2,500	5%, min R2,500
Isuzu and both Gran Max bakkies	to be confirmed	nil	5%, min R2,500
Third party damage	to be confirmed	nil	R7,500 trucks · R1,500 light
Windscreen and glass Santam figure is from the trailer page.	25%, min R350	20%, min R800	20%, min R800

> HOW THE REDUCERS WORK
>
> You pay the standard excess and VAPS refunds everything above the figure in the middle column. Each reducer is sized to the vehicle's value, so **even a total loss costs you only that figure**. On the trailer, the one vehicle where we can see Santam's excess, Santam is still better on a small claim.

WHAT AN ACCIDENT ON THE TRAILER COSTS YOU	SANTAM	VAPS	MOVEMENT
R20,000 of damage A small repair.	2,000	5,000	+3,000
R50,000 of damage The point where the two are level.	5,000	5,000	level
Written off, R146,285	14,629	5,000	−9,629

THE DECISIVE COVER · YOUR 8,000 LITRE DIESEL TANKER

Closer to a tanker policy, still without spill cover

On a vehicle that carries 8,000 litres of diesel, the losses that matter are a **fire** and a **spill of the load**. VAPS's reissue of 30 September fixed part of this: the tanker now carries a **R5,000,000 third party limit** and its **R200,000 diesel load is insured in transit**. **A spill of the load is still not covered.**

WHAT THE TANKER NEEDS	VAPS, 30 SEPTEMBER	WHAT IT MEANS
Increased third party liability	R5,000,000	Added on the tanker and the Fuso, R75 a month each.
Third party, fire or explosion	R1,000,000 still printed	**The policy section still caps a fire or explosion at R1,000,000.** VAPS must confirm in writing that the R5,000,000 applies to a fire.
The diesel load in transit	R200,000	8,000 litres of diesel, all risks, driver fidelity included. Excess 10% minimum R20,000, cut to R5,000 by the reducer; theft or hijack 25%, cut to R5,000 on the first R50,000.
Clean-up of a spilled load	excluded	The fuel spill extension covers the vehicle's **own** tank only. See below.
Pollution liability (Envirosure HAZ)	still not taken	The cover built for exactly this. VAPS needed goods in transit on the tanker before it could attach it. **That is now in place.**
Tracking with recovery	required	Over R200,000, so no theft or hijack cover without it.
Vehicle details	incomplete	Model year printed as "0"; finance house, owner and tracking fields empty.

THE SPILL CLAUSE, IN THE QUOTATION'S OWN WORDS

The fuel tank spillage extension pays up to R250,000 to clean up a leak *"from an insured vehicle's fuel tank or engine"*, and then says: *"This extension does not provide cover for any costs and expenses associated with the spillage of Dangerous Goods as identified and classified by the code of practice SABS 0228."* **Diesel is a Class 3 dangerous good under that code.** If the tanker overturns and loses its load, the clean-up is for your account.

IS THE TANKER INSURED TODAY?

It is not on your Santam policy. If it is already on the road it is either insured somewhere else, in which case we need that schedule, or it is not insured at all, in which case **it should not wait for this decision**. Please tell us which.

WHAT WE WILL ASK VAPS FOR

- Envirosure HAZ pollution liability attached, now that goods in transit is on
- Written confirmation that R5,000,000 includes fire and explosion
- The tanker declared as a dangerous goods carrier
- Model year, finance house and registered owner completed

OUR POSITION

We will not recommend any policy that insures the tanker without cover for a fire and a spill. Goods in transit and the higher third party limit are now priced. **Pollution liability will add to that, and you will have the figure in writing before you are asked to decide.**

WHAT THE INSURER WILL ASK WHEN THE TANKER IS DECLARED

What does it carry, and for whom?	Your own diesel for the abattoir and fleet is a different risk from delivering fuel to customers. The answer decides how it is rated.
Who drives it?	A driver carrying dangerous goods needs a professional driving permit endorsed for dangerous goods. Please confirm each driver holds one.
Is it marked and documented?	Placards and the emergency information for the load, carried in the cab.
Where does it stand overnight and where is it filled?	The tanker is the one vehicle whose overnight location matters to the neighbours as well as to you.

THE HONEST LEDGER · WHAT YOU GAIN, AND WHAT NEEDS CORRECTING

Nothing here is kept from you

WHAT THE VAPS POLICY INCLUDES

- ✓ **Roadside and accident assistance**, R20,000 a year on each truck and R5,000 on each light vehicle, with mechanical breakdown towing up to 250 km.
- ✓ **Windscreen cover** of R15,000 on each vehicle except the trailer.
- ✓ **Contingent liability R2,500,000**, when someone uses their own vehicle on your business.
- ✓ **Unauthorised passenger liability R2,500,000.**
- ✓ **Parking facilities and movement of third party vehicles R1,000,000.**
- ✓ **Towing and salvage R100,000**, wreckage removal R50,000, cross-border towing R20,000.
- ✓ **Loss of keys R50,000**, temporary repairs and fire extinguishing charges R35,000 each.
- ✓ **Cover in seven neighbouring countries**: Namibia, Eswatini, Botswana, Lesotho, Zimbabwe, Mozambique and Malawi.

WHAT MUST BE CORRECTED BEFORE INCEPTION

- **Your address, VAT and registration numbers** read TBA or blank on the quotation. Corrected already: the business description now reads abattoir with cold storage and hire-out service.
- **If any vehicle is hired out** to someone else, VAPS must be told. Santam records "hire out service" on the trailer.
- **The tanker's model year still reads "0"**, with owner, finance house and tracking fields empty.
- **The start date of 1 October has passed.** It must be reset before the quotation lapses at the end of October.
- **Claims preparation costs** are limited to R5,000 on VAPS.

THE CONDITION THAT MATTERS MOST

VAPS will not pay a **theft or hijack** claim on any vehicle worth more than R200,000 unless it had an approved tracking unit with a recovery service fitted and working, on a paid subscription, monitored 24 hours a day by a manned control room. That is **four vehicles**: the tanker, the Fuso, the Hyundai and the Hilux. Vehicles under R200,000 need a VESA level 3 or 4 or factory-fitted alarm or immobiliser. The quotation records nothing in its tracking fields, so this has to be evidenced vehicle by vehicle before cover starts.

VEHICLE	REGISTRATION	VALUE	REQUIRED BY VAPS FOR THEFT COVER
FAW tanker	HH10SGGP	500,000	**Tracking with recovery**
Fuso FK13-240	CZ74MNGP	350,000	**Tracking with recovery**
Hyundai H100	MV81TNGP	241,700	**Tracking with recovery**
Toyota Hilux 4.0 V6	MZ98SBGP	237,000	**Tracking with recovery**
Trailmax heavy trailer Santam: no approved security system	JT61KMGP	146,285	Alarm, immobiliser or tracking
Mercedes-Benz SLK, Mahindra, Prado	3 vehicles	311,600	VESA 3 or 4, or factory alarm or immobiliser
Both Gran Max bakkies, Isuzu KB	3 vehicles	192,700	VESA 3 or 4, or factory alarm or immobiliser

YOUR ABATTOIR

Neither policy covers your premises: no buildings, no machinery breakdown on the cold rooms, no **deterioration of stock** when the refrigeration fails, no business interruption and no public or products liability. If these are insured elsewhere we would like to see that schedule. If they are not, for a business built on cold storage, **that is a larger gap than anything on the motor policy**.

WHAT WE STILL HAVE TO CHECK ON YOUR SANTAM POLICY

The pages we have show the price and the vehicles, not the limits. Before we sign off the comparison we will confirm, from the full schedule: Santam's third party limit and any fire or explosion sub-limit, passenger and contingent liability, the excess on every vehicle other than the trailer, and the extensions Santam includes. **If Santam gives you anything VAPS does not, it will be shown to you in writing before you decide.**

NEXT STEPS · WHAT HAPPENS NOW

Four answers, then a final figure

WHAT WE WILL CLOSE BEFORE YOU SIGN

1. **Tell us where the tanker is insured today**
   If it is on the road and insured nowhere, that comes first, whatever you decide about the rest.

2. **Pollution cover on the tanker**
   Goods in transit and R5,000,000 third party are now on. Pollution liability from VAPS is the last piece, with the fire limit confirmed. And a Santam price for adding the tanker, so you compare eleven vehicles against eleven.

3. **Your full Santam schedule**
   All 72 pages, so every Santam limit and excess can be compared line by line. What we have is enough for the price, not for every cover.

4. **The quotation corrected**
   Business description, the Hyundai's registration and the Gran Max's year are fixed. Still to do: the tanker's details, your address, VAT and registration numbers, and tracking evidenced on the four vehicles over R200,000.

5. **Then we place it**
   The quotation reads 1 October 2026, which has passed. We will reset it and time the Santam cancellation to the day so there is no gap in cover and no double debit.

ON THE TEN VEHICLES YOU INSURE TODAY

Level on price

R8,478.36 against R8,429.80. VAPS adds roadside, windscreen, excess reducers and R5m third party on the Fuso for R48.56.

ON THE TANKER

Nearly there

R3,976.91 a month with its load and R5m third party. Still without cover for a spill of its load. Pollution liability will add to this.

Cartrack Insurance Agency (Pty) Ltd · FSP 17266

insurance@cartrack.com

IN ONE SENTENCE

VAPS insures your ten vehicles for the same money with more included, and we recommend the move once the tanker carries proper cover for a fire and a spill, the quotation describes your business correctly, and you have seen the tanker priced by both insurers.

WHAT WE NEED FROM YOU

- ☐ Where the tanker is insured today, and its schedule
- ☐ Your address, VAT and company registration numbers
- ☐ Tracking certificates for the four vehicles over R200,000
- ☐ Dangerous goods permits for the tanker drivers
- ☐ The full 72-page Santam schedule
- ☐ Tanker model year, finance house and owner
- ☐ Whether any vehicle is hired out, and to whom
- ☐ Any other policy on the abattoir

KEY DATES

Santam amendment effective	13 Aug 2026
VAPS quotation reissued valid 30 days	30 Sept 2026
Proposed start date to be reset once the tanker is priced	1 Oct 2026
First renewal, VAPS	1 Oct 2027

YOUR RECORD OF ADVICE

Replacing a policy means any reduction in cover must be disclosed to you in writing before you decide. On what we have seen, the reductions are the spill exclusion on the tanker (and its fire limit until VAPS confirms R5,000,000), the higher small-claim excess on the trailer, and claims preparation costs of R5,000. Anything further found in the full Santam schedule will be added.
