CARTRACK INSURANCE

RM EYES ONLY
DO NOT HAND TO THE CLIENT

RM PLAYBOOK · SKIP-A-WAY / NJ SWART · 28 SEPTEMBER 2026, UPDATED 17 OCTOBER

Skip-a-Way Playbook

VAPS reissued on 30 September: **R12,455.27**, with GIT R200,000 and R5m third party on the tanker and the Fuso. On the ten Santam insures the two are **R48.56 apart**, still a service sale. **The tanker still has no load spill cover, and the schedule still prints R1m for a fire.** Two asks left.

AS REISSUED	SAME TEN VEHICLES	LOAD SPILL COVER
+R4,025.47	+R48.56	R0
11 vehicles + GIT against 10	flat, incl. R5m TP on the Fuso	diesel is a dangerous good

IN THIS PLAYBOOK

- 01 The money
- 02 The tanker
- 03 Santam, what we see
- 04 VAPS teardown
- 05 Naked truth
- 06 Your moves

Internal Cartrack document, FSP 17266 · RM Cules van Dyk · not for circulation to the client or the insurer

WHERE THE MONEY ACTUALLY SITS

PLAY 01

Flat on the ten. The tanker is the whole gap.

Both documents reconcile to the cent. Santam R8,429.80 (premium R8,066.32 + Sasria R259.48 + VAS R104.00). VAPS reissue (30 Sept) R12,455.27. Strip the tanker and its load out of every VAPS line and you are left with **R8,478.36 for the same ten vehicles** (R8,403.36 on 22 Sept plus R75 for R5m third party on the Fuso).

ALL-IN MONTHLY	SANTAM	VAPS	MOVEMENT
Ten vehicles, cover and add-ons	8,056.18	8,221.22	+165.04
Sasria on the ten	259.48	257.14	−2.34
VAS R104.00 + other premium R10.14	114.14	–	−114.14
Same ten vehicles	**8,429.80**	**8,478.36**	**+48.56**
FAW tanker HH10SGGP, R500,000 motor 1,666.67 + TP R5m 75 · GIT R200k 433.33 + reducers 231 + assist 105 · OD reducer 500 · roadside 350 · Sasria 248.41 · theft reducer 187.50 · windscreen 120 · TP reducer 60	–	3,976.91	+3,976.91
As reissued 30 Sept	**8,429.80**	**12,455.27**	**+4,025.47**

HOW VAPS GETS TO THE SAME NUMBER

Base motor on the ten is **R4,338.52 against Santam's R8,056.18, 46% cheaper**. Then it adds R3,807.70 of reducers, windscreen and roadside and lands level. **Same shape as Alpha on Bakers.** If the client pushes on price, the lever is the add-ons: drop windscreen (R1,080) and the ten are R1,106 cheaper than Santam. Do not offer that first; the reducers are why VAPS is worth moving to.

WINNERS AND LOSERS, VEHICLE BY VEHICLE

Hyundai H100	−684.64
Trailmax trailer	−456.61
Gran Max LN57GDGP	−81.02
Fuso FK13-240 dearer at VAPS, say so	+784.49
Mercedes SLK	+218.92
Prado, Isuzu, Hilux, Mahindra, Gran Max	+308.90

WHAT EACH BROKER EARNS

Bell Ryck (AGT4849247) earns **R1,009.05 a month** on Santam. VAPS pays **R1,263.69**. Neither side charges a broker fee. On an account this size expect Bell Ryck to fight on service, not price.

THE FAIR COMPARISON

Eleven against eleven. **Ask Bell Ryck or Santam to price the tanker as an addition.** Until then the client is comparing a fleet with a tanker against a fleet without one, and the pack says so.

TELL THE CLIENT THIS, IN THIS ORDER

"Op die tien voertuie wat u vandag het, is die prys dieselfde. VAPS gee u meer vir dieselfde geld. Die ekstra R3,000 is die tanker, en die tanker het nog nie die regte cover nie."

WHAT THE SAME MONEY BUYS, IN RANDS THE CLIENT UNDERSTANDS

FUSO WRITTEN OFF

R5,000

excess with reducer, against R35,000 standard

ROADSIDE PER TRUCK

R20,000/yr

towing 250 km, no storage fees; Santam VAS R104 all in

THIRD PARTY EXCESS

Nil

on all ten motor units; R7,500 on trucks without it

💬 **"Maar die VAPS quote is R3,000 duurder."**

✓ "Net omdat die tanker nou by is. Haal die tanker uit en VAPS is R26 goedkoper as Santam, met roadside, windscreen en excess reducers ingesluit. Die vraag is nie die prys nie, die vraag is of die tanker reg verseker is."

THE FINDING THAT DECIDES IT

PLAY 02

The tanker is insured as a truck, not as a tanker

THREE HOLES, ALL ON THE FACE OF THE QUOTE

1. Third party R2,500,000, but R1,000,000 for fire or explosion (Sub Section B limits, p12), "Increased third party liability: No" on all eleven. **2. The spill extension excludes the load:** R250,000 for the vehicle's own tank or engine, then *"does not provide cover for any costs and expenses associated with the spillage of Dangerous Goods as identified and classified by the code of practice SABS 0228"*. Diesel is Class 3. **3. Pollution Liability (Envirosure HAZ): Not taken**, and its excess reducer not taken either.

TANKER FIELD ON VAPS53947	PRINTED	DO THIS
Make, model, year	FAW Tanker, **0**	Get the year off the licence disc
VIN and engine number	TBA	Same on every item, fill in all eleven
VESA approved tracking	blank	R500,000 = tracking with recovery required
HP institution, registered owner	blank	Financed? Whose name is on the NaTIS?
Increased third party	No	Price R5m, and fire/explosion to match
Windscreen, roadside	R120 · R350	Fine

ASK THIS BEFORE ANYTHING ELSE

Is the tanker on the road today? It is not on the Santam vehicle list. If it runs, it is insured somewhere else (get that schedule) or not at all (then it is urgent, whoever wins). Same shape as the nine tracked Tshenolo vehicles that were not on its policy.

And look at the Santam item numbers: **PC items 2, 4 and 11 are missing** from the list (1, 3, 5 to 10, 12, 13). Three vehicles have come off this policy. **Ask whether the tanker was ever one of them.**

WHAT VAPS WILL ASK ONCE IT IS DECLARED

- **Own use or delivery?** Diesel for the abattoir and their own fleet is a different risk from selling fuel to customers.
- **Drivers:** PrDP endorsed for dangerous goods, each one.
- **Placards and the emergency information** carried in the cab.
- **Where it parks and fills overnight.**
- Declare it as a **dangerous goods carrier** in writing so nobody can say later it was not disclosed.

THE ASK TO VAPS, IN ONE E-MAIL

(1) Envirosure HAZ pollution liability on HH10SGGP, priced, with its excess reducer; (2) increased third party to R5,000,000 including fire and explosion; (3) tanker declared as a dangerous goods carrier; (4) business description corrected (Play 04); (5) confirm VAPS rated on the client's claims record. **Expect the tanker to cost more than R3,082.58 once this is done. That is the honest number.**

PRECEDENT TO KEEP IN YOUR POCKET

Same R1m fire/explosion cap as **CS Continental** and **Twin Trans** (King Price dropped pollution on a fuel tanker there). On **Bakers** the spill answer was a separate Envirosure Spill Protect plan. If VAPS's HAZ option is thin, ask Envirosure direct.

IF THIS HAPPENS TO THE TANKER	SANTAM TODAY	VAPS AS QUOTED	VAPS ONCE FIXED
Overturns, 8,000 L in a stream clean-up and pollution claims	not on the policy	excluded, SABS 0228	HAZ limit, to be priced
Fire spreads to a filling station, R3m	not on the policy	R1m paid, R2m on the client	R5m, to be priced
Hits a car, no fire, R800k	not on the policy	paid, nil TP excess	paid, nil TP excess
Stolen, R500,000	not on the policy	only with tracking; R5,000	only with tracking; R5,000
Accident damage, R200,000	not on the policy	R5,000	R5,000

PLAY 03

Three pages of 72. Here is what they say.

Amendment effective **13 August 2026**, created 4 September, via **Bell Ryck Ins Brokers**. Pages 1, 11 and 12 only, from your screenshots. Enough to reconcile the price and match the vehicles. Not enough for limits or the excess on anything but the trailer.

PC	VEHICLE	REG	YEAR	VALUE	PREMIUM
1	**Trailmax heavy trailer** UL2500 universal loader, claim free group 7	JT61KMGP	2020	146,285	966.23
3	**Toyota Prado GX 3.0D**	KGL742NW	1998	83,400	419.83
5	**Isuzu KB 280 DT LWB**	CWJ716GP	1997	45,000	293.81
6	**Fuso FK13-240 F/C C/C**	CZ74MNGP	2014	350,000	1,393.43
7	**Daihatsu Gran Max 1.5**	LN57GDGP	2013	70,800	572.92
8	**Mercedes-Benz SLK 32 AMG**	MT79YTGP	2003	120,500	452.92

10	**Toyota Hilux 4.0 V6 Raider 4x4**	MZ98SBGP	2012	237,000	1,037.21
12	**Daihatsu Gran Max 1.5**	DJ6WDGP	2014	76,900	503.84
13	**Mahindra Bolero Maxi Truck**	JH46FWGP	2019	107,700	615.11
	Ten vehicles			**1,479,285**	**8,056.18**

WHAT THE THREE PAGES TELL US

- Business: **"1. Abattoir with cold storage. 2. Hire out service."**
- Trailer: business use **"Hire out service"**, overnight at Gerardsville, **"Santam approved factory fitted security system: No"**.
- Trailer excess **10% min R1,000**, glass 25% min R350, theft/hijack 10% min R1,000.
- Premium R8,066.32 = items R8,056.18 + **R10.14** we cannot place. A small second section? Find it in the full schedule.
- Paid by ABSA debit order. Reg and VAT blank on the schedule.

WHAT THE FULL 72 PAGES MUST ANSWER

- ☐ Third party limit, and any fire/explosion sub-limit
- ☐ Passenger and contingent liability
- ☐ What the R10.14 and the R104 VAS buy
- ☐ Claims history (claim free group 7 on the trailer)
- ☐ Excess on the other nine vehicles
- ☐ Extensions: towing, wreckage, keys, spill
- ☐ Security fields on every vehicle
- ☐ What PC items 2, 4 and 11 were

TRAILER JT61KMGP, THE ONE WE CAN COMPARE	SANTAM	VAPS WITH REDUCER	WHO WINS
R20,000 accident	2,000	5,000	Santam
R50,000 accident	5,000	5,000	level
Written off, R146,285	14,629	5,000	VAPS
Stolen	14,629	5,000	VAPS

> **THE DRIVE ROUTE**
>
> The PDF would not download from WhatsApp. Ask the client or Bell Ryck for it by e-mail, or save it to Google Drive and share it; that is how Gateway, Vuyos and Bakers arrived. Rebuild the excess table the day it lands.

What every rand buys, and what is keyed wrong

ITEM	MOTOR	OD RED.	THEFT RED.	TP RED.	SCREEN	ROAD	TOTAL
Fuso CZ74MNGP inner R5,000	1,166.67	350.00	131.25	60.00	120	350	2,177.92

FAW tanker HH10SGGP inner R5,000	1,666.67	500.00	187.50	60.00	120	350	2,884.17
Eleven, before Sasria R455.55	**6,005.19**	**1,494.00**	**631.20**	**360.00**	**1,200**	**1,340**	**11,030.39**

KEYED WRONG, FIX BEFORE INCEPTION

- **Business "Transporter".** Santam: abattoir with cold storage, hire out service. Misdescribed risk = non-disclosure at claim stage.
- **Hyundai "MVBITNGP"** is MV81TNGP. Santam's font draws 1 like I (its figures read "RI,393.43"); VAPS keyed 8 as B and 1 as I.
- **DJ6WDGP**: Santam 2014, VAPS 2019, same R76,900. Also one digit short for a Gauteng plate on both. Check the disc.
- **Tanker year "0"**, VIN and engine "TBA" on all eleven.

SMALL THINGS WORTH A LINE IN THE E-MAIL

- **Sasria page lists nine items, R450.31**; the cover summary charges R455.55. Prado and SLK are missing from the Sasria page. R5.24, but ask.
- **TP reducer on DJ6WDGP is R15,000**; every other light vehicle is R1,500 at the same R30. Typo, fine either way.
- Claims preparation costs **R5,000**.
- No claims-experience condition printed. Confirm VAPS rated on the record anyway.

THE EXCESS, WITHOUT THE REDUCERS

HCV and trailer base: **10% of claim, min R10,000 / R15,000 / R30,000** by value band; theft 15% min R5,000; TP R7,500. Light vehicles 5% min R2,500. **+5% between 23h00 and 04h00** on the HCV table. If the client ever asks to drop the reducers to save R2,485.20, show them the R30,000 minimum on the Fuso and the tanker first.

EXTENSIONS INCLUDED, EVERY HCV ITEM

Contingent liability	2,500,000
Unauthorised passenger liability	2,500,000
Parking and movement of third party vehicles	1,000,000
Fuel tank spillage (own tank only)	250,000
Towing and salvage	100,000
Wreckage removal · loss of keys	50,000 each
Temporary repairs · fire extinguishing	35,000 each
Cross-border towing	20,000

NOT TAKEN, ALL AVAILABLE ON THE QUOTE

- **Pollution liability (Envirosure HAZ)** and its reducer
- **Increased third party liability**, all eleven
- Credit shortfall (check whether anything is financed)
- Car hire, truck hire, tyre cover
- VAPS HCV telematics and driver assist
- Goods in transit (if the tanker delivers fuel it may matter)
- Increased towing inside RSA

Territories: RSA plus Namibia, Eswatini, Botswana, Lesotho, Zimbabwe, Mozambique and Malawi.

The Naked Truth

DO NOT HAND TO THE CLIENT

Six things the client or Bell Ryck can throw at you. **Raise them first** and you look like the expert. Every one has an honest answer.

1 "So why move at all?"

R26.44 is not a reason. If the client has no service complaint, Santam may just match the add-ons.

SAY *"U skuif nie vir die prys nie. U kry roadside van R20,000 per trok, windscreen en u excess op elke voertuig afgekoop, vir dieselfde geld."*

2 The Fuso is dearer

+R784.49 a month at VAPS, the biggest single swing in the file.

SAY *"Ja, die Fuso kos meer. Daarvoor is sy excess R5,000 in plaas van minimum R30,000, en hy kry R20,000 roadside."*

3 Santam is better on a small trailer claim

10% min R1,000 against a R5,000 inner. Level at R50,000; VAPS wins above it.

SAY *"Op 'n klein skade betaal u by Santam minder. Op 'n groot een, of as die trailer afgeskryf word, betaal u by VAPS net R5,000."*

4 We have not seen Santam's limits

Three pages of 72. If Santam's third party is R5m and ours is R2.5m, that is a regression we have not disclosed yet.

SAY *"Ek wil nie iets vergelyk wat ek nie gesien het nie. Stuur vir my die volle skedule en ek wys u lyn vir lyn."*

5 "Hire out service"

If vehicles are hired to third parties, VAPS has not rated that, and the business description says "Transporter".

SAY *"Verhuur julle voertuie aan ander mense? Dit moet op die polis staan, anders kan hulle 'n eis weier."*

6 The tanker price will go up

HAZ pollution and increased TP are not free. The +R3,056 is a floor, not the answer.

SAY *"Die R3,082 vir die tanker is sonder spill cover. Ek gee u die regte syfer voor u iets teken."*

7 Theft cover is conditional on four units

Tanker, Fuso, Hyundai, Hilux are over R200,000. No tracking with recovery, no theft or hijack claim. Every tracking field on the quote is blank.

SAY *"VAPS betaal nie 'n diefstal eis op daai vier sonder tracking met recovery nie. Kom ons kry dit reg voor die eerste Oktober."*

8 The quote has typing errors

"Transporter", MVBITNGP, a tanker from year 0, DJ6WDGP's year, Sasria on nine of eleven. Bell Ryck will use them to call the quote careless.

SAY *"Ons het dit self gevang en laat regmaak. Dit is presies hoekom u 'n broker wil hê wat die skedule lees."*

BEFORE YOU PRESENT

Have in hand: where the tanker is insured today, VAPS's written answer on HAZ and increased third party, and either the full Santam schedule or a clear line that says you have not seen it. ***Do not present the R11,485.94 as the price.***

BOTTOM LINE

This is a service move with a tanker problem attached. Win it on roadside, excess and one policy for the whole fleet. Do not let it become "VAPS is cheaper", because it is not, and do not let the client bind with the tanker as quoted.

WHAT YOU DO NOW

PLAY 06

Your moves, in order

1. **Ask where the tanker is insured today**
   If nowhere and it is running, that is the first conversation, whoever writes the risk.

2. **Get the full Santam schedule**
   E-mail or Google Drive. Third party limits and the excess table decide whether the pack's "to be confirmed" lines turn into gains or regressions.

3. **Two asks to VAPS, before about 30 October**
   The 30 Sept reissue lapses after 30 days. Envirosure HAZ on the tanker (GIT, their precondition, is now on) and written confirmation that R5m covers fire and explosion. Reset the 1 Oct start date.

4. **Ask Bell Ryck or Santam to price the tanker**
   So the client sees eleven against eleven. If they will not, the pack already says the comparison is ten against ten.

5. **Tracking on four units**
   Tanker, Fuso, Hyundai, Hilux: over R200,000, so tracking with recovery or no theft cover at VAPS. The trailer has "Santam approved security: No". **Cartrack lead, and a condition of the policy.**

6. **Ask about the abattoir**
   No buildings, cold rooms, deterioration of stock, machinery breakdown, BI or liability on either document. If it is uninsured, it is a bigger account than the fleet.

💬 **"Bell Ryck sê hulle kan dieselfde roadside by Santam kry."**

✓ "Goed, laat hulle dit op skrif sit, saam met die tanker se prys. Dan vergelyk ons elf teen elf, met dieselfde goed ingesluit. Tot dan is dit net 'n belofte."

💬 **"Ek wil net die tanker ook laat verseker, maak die spill saak?"**

✓ "As daai tanker omslaan en 8,000 liter diesel loop in 'n rivier of 'n dorp in, is die skoonmaak vir u rekening soos die quote nou staan. Dit is die een ding wat ek nie wil hê u moet self dra nie."

💬 **"Kan ons net die tien skuif en die tanker later doen?"**

✓ "Ja. Die tien kan teen dieselfde prys skuif, dit is R8,478 by VAPS teen R8,430 by Santam, en daai R48 koop R5m third party op die Fuso. Maar die tanker moet vandag iewers verseker wees, en as hy by VAPS inkom wil ek hom met spill en fire cover hê, nie soos hy nou gequote is nie."

REISSUE OF 30 SEPT (R12,455.27): WHAT VAPS DID

✅ **GIT on the tanker**: diesel, load R200,000, all risks, **driver fidelity included**, salvage R250,000; excess 10% min R20,000 cut to R5,000 inner (R66), theft/hijack 25% cut to R5,000 inner on R50,000 (R165), GIT 24/7 assist R105, Sasria +R50. ✅ **Increased TP R5,000,000 on the tanker and the Fuso**, R75 each. ✅ Business description "Abattoir with cold storage; hire out service". ✅ MV81TNGP. ✅ DJ6WDGP shows 2014. ❌ **Envirosure HAZ: still "Not taken"**, and the spill extension still excludes SABS 0228 dangerous goods. ❌ Sub Section B still prints **fire/explosion R1,000,000** beside the R5m. ❌ Tanker year "0", owner, HP and tracking blank; policyholder reg, VAT and addresses "TBA". ❌ Inception 01/10/2026 has passed.

Reply, ready to send: "Re VAPS53947, Skip-a-Way. Thank you for the reissue of 30 September with GIT and R5,000,000 third party. Two items remain before we present: (1) please attach Envirosure HAZ pollution liability and its excess reducer to item 11, FAW tanker HH10SGGP, now that GIT is on; (2) please confirm in writing that the R5,000,000 increased third party limit on items 1 and 11 applies to fire and explosion, as Sub Section B still prints R1,000,000. Please also reset the inception date; we will send the tanker's year, owner and finance house, the policyholder's details and the claims history from Santam."

- ☐ Tanker: insured today, and by whom
- ☐ HAZ + fire confirmation asked, before about 30 Oct
- ☐ Hire-out question asked
- ☐ Tracking quote for 4 units
- ☐ Full 72-page Santam PDF received
- ☐ Santam price for the tanker requested
- ☐ Abattoir cover question asked
- ☐ Record of advice: spill, fire R1m, trailer excess

CLOSE LIKE THIS

"Op prys is dit gelyk, so die besluit gaan oor diens en oor die tanker. Gee my die volle Santam skedule en sê vir my waar die tanker vandag verseker is. Dan kom ek terug met een syfer vir al elf, met die tanker reg gedek, en u besluit met alles voor u."
