FLEET AND OFFICE REVIEW · SEPTEMBER 2026

Double the liability, for less

ONE has quoted your whole account: all 51 vehicles on the same basis as today, plus the depot. Passenger and third-party limits go from R2.5 million to R5 million. The price is lower, and it gets lower still once one error on the quote is fixed.

What each one costs

ONE's fleet value is your Santam register to the rand, R13,011,084, and every vehicle keeps the basis it has today: 16 buses comprehensive, 14 third-party fire and theft, and the cars, bakkies, trailers and caravans as they are. The fleet premium is almost identical. The difference is in fees and in the office sections.

THE ERROR ON THE ONE QUOTE, AND WHY THE CORRECTED COLUMN IS THE REAL ONE

Your Santam fire section carries a line reading "*Sasria cover for the busses, depot risk only, R7,923,960*" at a premium of R0.00. It is a Sasria placeholder; the buses are insured under motor. ONE copied the whole fire subtotal, R8,942,700, in as a building and charged R1,341 a month of fire premium and R351 of Sasria on it, then insured the plant and the office contents a second time. **We have asked ONE to reissue the quote on the property that actually stands at Uitspan Street: R868,740.** That takes about R1,660 a month off.

IF THE PRADO IS NOT YOURS TO INSURE HERE

Take another R1,277 off: ONE would then be about **R33,305 a month, R4,230 less than today**. We have not built the recommendation on that until you confirm the vehicle.

ONE THING WE WILL NOT SIGN OFF UNTIL IT IS IN WRITING

ONE's quote reads "Passenger Liability R5 000 000". It does not say **fare-paying**. You carry commuters, WCED scholars and charter groups for reward, and in July ONE's own bus quote needed a dedicated fare-paying passenger section added before it matched your Santam cover. **We have asked ONE to state on the schedule that the R5 million responds for fare-paying passengers on all 30 buses and the Quantum, with the seat basis.** Until that is on paper the R5 million is a number, not a promise.

THE ONE STEP BACKWARDS, SO YOU SEE IT BEFORE YOU DECIDE

ONE's excess on a bus is **10% of the claim** (minimum R4,000). On a R150,000 repair that is R15,000. Your Santam schedule does not print a bus excess at all, so we are confirming Santam's figure from the policy wording and will put both in writing in the Record of Advice.

HOW ONE PRICES THE FLEET, AND WHAT THAT MEANS FOR YOU

ONE charges one fleet premium, R390,000 a year, rather than 51 separate rates. It asks for a **final fleet list with values** before the policy starts, will review Sasria on that list, caps any single vehicle at **R650,000** unless declared (only the Iveco is, at R1,280,643), excludes hired-in vehicles, and **does not cover a newly bought vehicle automatically**. Every addition must be declared the day it arrives. Two of your MAN 65-seaters have no registration numbers on the Santam schedule; ONE will need them.

TRACKERS, OR NO THEFT COVER ON TEN VEHICLES

ONE requires a monitored early-warning tracking and recovery unit on every vehicle worth R500,000 or more, and on any Hilux, Fortuner or Quantum regardless of value, failing which theft is not covered. On your fleet that is the Hilux, Fortuner, Quantum, both Scania's, both MAN 65-seaters, the Irizar, the Iveco and the Prado: **ten units**. Neither schedule shows a device fitted today. Cartrack units on those ten meet the condition and give you live location on the buses that carry your passengers.

What happens now

OUR RECOMMENDATION

Move the account to ONE on the corrected quote. Every liability limit doubles, the unauthorised passenger cover you asked for in July is in, the fee disappears, and the corrected price is about R2,950 a month below today. We will not ask you to sign until three things are on paper: the fire section reissued, fare-paying passenger liability stated on the schedule, and the insurer behind the fleet named.

OUR SIDE

1

ONE commercial quote reissued

Fire on R809,340 (diesel and plant), office contents R59,400, the bus placeholder removed, and the business description corrected to include the bus operation.

2

Fare-paying passenger liability in writing

R5,000,000 on all 30 buses and the Quantum, seat basis stated, on the schedule.

3

Insurer named on the fleet

The fleet quote is on ONE Underwriting Managers paper; the office quote is on One Insurance Limited. We confirm who carries each.

4

Claims history to ONE, dates set

ONE's price is subject to it. Fleet quote expires 2 October; we aim for 1 November with 31 days' notice to STP Intasure, no gap, no double debit.

5

Trackers on the ten

Fitted before inception so theft cover is live from day one.

YOUR SIDE

- ✓ **The Prado CFG41137:** yours, and to be insured here?
- ✓ **Registration numbers** for the two MAN 65-seaters (fleet 508 and 509).
- ✓ **The office alarm:** ONE's quote says both that there is none and that one is warranted. Which is it?
- ✓ **Your written Sasria decision** for the buses, as in June. No riot cover at either insurer.
- ✓ **The HP laptop:** R5,500 today, R15,500 on the ONE quote. Confirm the value.
