

RM PLAYBOOK · THE BANDINI GROUP · 8 OCTOBER 2026

Four Options. Same Gaps. Sell the Group.

Bryte is the incumbent. The new **split** (Riskflow/Old Mutual for the cars, VAPS/King Price for trucks and trailers, Bouwen/Compass for plant) is the cheapest on the vehicles but dearest all-in, because of **R55,160/mo of excess reducers** and a Sasria line on the wrong sum insured. **Hollard** still has the best limits. **None of the four covers the loads, and nobody has shown us products liability or recall.**

BRYTE, BEFORE INCREASE

R192,961

R2,315,527 a year

SPLIT AS QUOTED / LEAN

**R270,129 /
R212,258**

lean = Sasria fixed, no reducers

PRODUCTS AND RECALL

?

the biggest risk, unseen

● 05 Liability

● 06 Fleet terms

● 07 Naked truth

● 08 Moves

Split cheapest on the vehicles, dearest all-in

Bryte COM208596JB renewal (annual / 12, before its increase), VAPS54248 (Renasa), Hollard 309490 (via ASI Blue, Sasria corrected) and the split: RFSP00162 + VAPS54229 + BOUT204946. Monthly.

GROUP	B/V/H/S	BRYTE	VAPS	HOLLARD	SPLIT
Trucks split 4.00% (VAPS54248 3.75%)	42/42/40/44	76,338.67	81,843.75	85,600.00	89,966.67
Trailers split 2.25% (VAPS54248 2.00%)	30/32/47/31	43,843.33	32,243.33	34,316.67	35,336.25
Cars, SUVs, bakkies Riskflow 2.80%	38/43/43/43	40,504.87	48,512.50	51,746.66	36,222.67
Plant, special types Bryte TPO; split plant all risks	49/38/25/40	15,738.33	4,677.51	8,850.00	6,179.04
Sasria split: none on the 44 trucks		16,535.36	19,194.70	17,294.86	15,416.69
Vehicles + Sasria	159/155/155/158	192,960.56	186,471.79	197,808.19	183,121.32
Fees Hollard risk services; VAPS admin fee		–	–	9,298.17	9,287.17
Extras roadside, windscreen, Hollard extensions; split reducers R55,160.43 + waiver + driver assist		?	33,470.00	5,450.00	77,720.43
All-in		192,960.56	219,941.79	212,556.36	270,128.92

IF BRYTE'S INCREASE ON TRUCKS, TRAILERS AND CARS IS X% (EACH 1% = R1,606.87/MO)

BRYTE INCREASE	BRYTE /MO	VAPS	HOLLARD	SPLIT QUOTED	SPLIT LEAN
0%	192,960.56	+26,981.23	+19,595.80	+77,168.36	+19,297.87
5%	200,994.90	+18,946.89	+11,561.46	+69,134.02	+11,263.53
10%	209,029.25	+10,912.54	+3,527.11	+61,099.67	+3,229.18
12.2% (Hollard even) split lean even at 12.0%	212,564.36	+7,377.43	–8.00	+57,564.56	–305.93
16.8% (VAPS even)	219,955.95	–14.16	–7,399.59	+50,172.97	–7,697.52

Split lean = R270,128.92 + R4,549.94 truck Sasria – R55,160.43 reducers – R5,280 windscreen waiver – R1,980 driver assist = **R212,258.43**, keeping roadside and the admin fee. The admin fee may fall with the premium. As quoted, the split only matches Bryte at a **48%** increase.

TELL THE CLIENT THIS, IN THIS ORDER

"Op die voertuie alleen is die split die goedkoopste, en julle plant kom vir die eerste keer op 'n regte plant polis. Hollard gee die beste limits. Maar nie een van die vier dek julle loads of julle produkte nie, en dis waar 'n kosbesigheid die meeste geld kan verloor."

Three insurers, one column, seven fixes

Elizabeth: "should be quoted next to others and not under another insurer". So it is its own column, each part named for its insurer. Built on the client's new register: **158 items, R67,379,000.**

PART	UNDERWRITER / INSURER	ITEMS / SI	RATE	MONTHLY
Cars, SUVs, bakkies RFSP00162	Riskflow (FSP 54957) / Old Mutual Insure	43 / 15.52m	2.80%	41,618.97
Trucks + trailers VAPS54229	VAPS (FSP 46264) / King Price, not Renasa	75 / 45.84m	4.00 / 2.25%	221,649.21
Plant + farm BOUT204946	Tranquille Bouwen (FSP 54312) / Compass	40 / 6.02m	1.23%	6,860.74
Split total	all three reconcile to the cent	158 / 67.38m		270,128.92

ITEM	WHAT THE QUOTE SAYS	DO THIS
1. Sasria on the wrong SI	VAPS54229 Sasria: trailers R18,846,000 R7,478.46 and R15,524,000 R6,160.23 . That is the light-vehicle SI (insured at Riskflow, Sasria R1,096.30 there). The 44 trucks, R26,990,000, carry no Sasria. Q5 proves it: it prints trucks R26,990,000 R10,710.17 and light M2 R1,096.30. True Q2 Sasria R18,188.63, +R4,549.94/mo.	Reissue. As printed, a riot or strike loss on a truck is not covered.
2. Excess reducers	OD R38,196.67 + theft R14,323.76 + TP R2,640 = R55,160.43/mo, R661,925/yr. Cover = 10% (OD) and 15% (theft) of fleet SI; inner R5,000/R10,000 trucks, R2,500 trailers. Declared claims' standard excess ≥ R496,893 in total.	Price without, and theft-only. Theft is 49% of the claims.
3. Rates went up	Trucks 4.00% v 3.75% and trailers 2.25% v 2.00% on VAPS54248. At the old rates: R84,343.75 + R31,410.00, R9,549.17/mo less.	Ask VAPS to hold the VAPS54248 rates.
4. New admin fee	R9,287.17/mo administrator fee. VAPS54248 printed fees R0.	What is it for, and is it a % of premium?
5. Truck TP: R2.5m / R1m	Q2 prints the limits blank; Q3 (same VAPS54229) prints them: TP R2,500,000 , fire/explosion R1,000,000 , contingent + unauthorised pax R2.5m, parking R1m, towing R100k, wreckage R50k, keys R50k, fuel spill R250k. Passenger liability, riot and increased TP: No.	Ask R5m incl. fire to match Hollard. Get Q2 reissued with the limits.
6. Plant: no road risk	BOUT204946: "Third party road risk liability: No" on both items. Registered: Landini LR12FZGP + LT09YYGP, roller JVB282GP, Ford TLB FMV129GP, P&H crane WDD029GP R900,000 , horse box, game trailer. Item limits R500k farm / R900k plant (crane and a Landini sit on them).	VAPS Q3 puts all 40 on motor, comprehensive, with road TP: R10,031.67 + Sasria R681.70 + admin R501.58 = R11,214.95 v Bouwen R6,860.74 (+R4,354.21). Best: the 7 registered units on VAPS, the rest on Bouwen.
7. Riskflow theft	No theft/hijack cover on Ranger, Hilux, Fortuner, LC/Prado, D-Max/KB, Quantum, Polo, H100, NP200 without a self-arming tracker with recovery, fitted within 14 days. +2.5% over R750k untracked. Broker block names Old Mutual Insure (Tied agent).	Count those models on the register. Confirm Cartrack's code and commission.

GENUINE GAINS

- ✓ **Cheapest on the vehicles:** R183,121 v Bryte R192,961
- ✓ Cars and bakkies **R36,223** v VAPS R48,513, Hollard R51,747
- ✓ Plant on **full all risks** + R1m plant liability (Bryte TPO)
- ✓ Driver PA **R100k** death/disability, 2 per truck, R50k medical
- ✓ Credit shortfall on cars and plant; car hire 30 days

WATCH-OUTS

- Three debit orders, three claims lines, two insurers in a truck v tractor claim.
- **No bus** on the register (VAPS54248 had one, R300,000). Sold, or missing?
- Name printed **"Impact Distributors - Bandini Cheese"**, one company only.
- Tranquille: **add 5% admin** to Riskflow and Bouwen (≈R2,424/mo). Placed via Tranquille Intermediary Services FSP 48264: confirm our share.
- Commission: VAPS R25,182.37, Riskflow R4,653.90, Bouwen R1,317.61.

QUOTE 5: VAPS WHOLE FLEET ON KING PRICE, R295,939.35 (+R25,810.43 ON THE SPLIT)

Trucks and trailers identical to Q2 (Sasria correct here). The gap: **light vehicles R60,358.80 v Riskflow R41,618.97** (+R18,739.83: rate 3.0% v 2.8% + reducers on 43 at R1,000 inner + waiver), Sasria +R4,549.94 (Q2's error), admin +R3,061.61, plant **TPO R6,269.79 v Bouwen all risks R6,860.74** (–R540.95). Fix Q2's Sasria and add 5% admin to Riskflow/Bouwen and the split is still **≈R18,836 cheaper** for better plant cover. One insurer = one debit order; that is the only case for Q5.

ELIZABETH'S SPREADSHEET: DO NOT QUOTE FROM IT

All five PDFs are now in and reconcile. But the Summary sheet copies Quote 5's ratio onto the plant quote (true 0.114%/mo, 25% of items, 8.9% of SI). Q2 and Q3 put Sasria on the R15.5m light-vehicle SI, not the trucks; Q5 has it right.

Best limits in the file, five things to fix

ITEM	WHAT THE QUOTE SAYS	DO THIS
Placed via ASI Blue	" INSURANCE BROKER: ASI BLUE (PTY) LTD ". Elizabeth confirms 8 Oct: Cartrack placed it through ASI , not BrokerBuddy. Broker fee "-"; no commission shown.	Confirm Cartrack's code on the ASI placement and the commission we earn.
Sasria	Annual R207,538.33 shown as R20,753.83/mo (+10) . True R17,294.86. Total prints R216,015.33, true R212,556.36 .	Reissue. Same error as the Bryte quotes on Lomaen and Vuyos.
Increased third party	"Increased Third Party Liability: No " R10,000,000, yet R38,400/yr is inside the R65,400 extensions. TP printed R5m any event and R5m fire.	In or out? If out, R3,200/mo comes off.
Parking accumulation	"...being parked either at Your premises or any other parking facility... the following limits shall apply:" and then nothing .	Get the missing limits. 155 vehicles at Robertsham.
Excess basis	Own damage 5% of sum insured , min R5,000, per registration; theft +10% of SI ; +5% 23h00 to 04h00.	Price the reducers (12% OD, 2% theft, 7.2% TP rates listed).
Risk services fee	R111,578/yr = R9,298.17/mo for the Hollard Risk Services Bureau (monitoring, driver training).	What do they get for it? Is it optional?
80/20 fund	Cash-back if claims stay under 60% of the risk premium, paid 45 days after anniversary. Fund size not stated.	Ask for the fund amount in rand.

GENUINE HOLLARD GAINS

- ✓ **TP R5m and fire R5m** (VAPS R2.5m / R1m)
- ✓ **Agreed value** = retail + extras + 20%
- ✓ Windscreen included on all 108
- ✓ Special types comprehensive (Bryte TPO)
- ✓ Driver PA R30k death, R10k hospital, R5k income
- ✓ Tool of trade R1m; motor PL R1m; contingent R2.5m
- ✓ Territory to Kenya, Uganda, Angola, DRC to Kolwezi

WATCH-OUTS

- **Valid 14 days: expires 21 October.**
- Void if the risk is already with Hollard.
- Needs signed proposal (form is **blank**, 278 fields) and a **blow-by-blow** 3-year loss history.
- **Two trackers**, one early warning, on Hilux/Fortuner 2016+, Prado 2018+, LC200 2017+, Lexus 2018+ in Gauteng.
- Towing must go through the Hollard assist line or it is for the client's account.
- GIT and EIL "available on request", not quoted. No passenger liability.

EXCESS ON AVERAGE VEHICLES	VAPS	HOLLARD	BETTER
Truck, R100,000 accident	30,000	32,100	VAPS
Truck, R400,000 accident	40,000	32,100	Hollard
Truck stolen	93,536	96,300	level
SUV, R20,000 dent	2,500	no payout	VAPS
SUV, R100,000 accident	5,000	23,921	VAPS
Bakkie, R20,000 accident	2,500	9,074	VAPS

IN THE ROOM

"Hollard se cover is die sterkste, maar hulle excess is 'n persentasie van die voertuig se waarde. Op die trokke maak dit nie veel saak nie, op julle 43 karre en bakkies wel. Ek laat albei die excess reducers prys."

Five companies, three sites, one family

Family business since **1957** (Omero and Elena Bandini); brothers **Rob and Morris Bandini**, both engineers, have run it since the early 80s. Privately owned. U.S. Bandini signed the broker authorisation letter.

THE COMPANIES

Impact Distributors distribution, management, sales, admin, finance	Robertsham
Bandini Cheese mozzarella, milk, butter, cream	Doornkop
Fresco Foods manufacturing	Robertsham
Fresco Beverages "state-of-the-art" bottling plant	Eikenhof
Elena's Delicatessen	?

THE SITES

15 Landsborough St, Robertsham VAPS prints "Landborough"	HQ, fleet
Plot 109, Hopewell St, Doornkop South Roodepoort, smallholding	Factory
96 Bronk Drive, Eikenhof	Bottling

The **7 tractors and 12 farm implements** almost certainly live at the Doornkop plot. Ask if there is a dairy herd: if so, livestock cover is another conversation.

WHAT THEY SELL: ABOUT 25 RANGES, NOT JUST CHEESE

Mozzarella filata, cheddar, gouda, soft, mould, hard and brine cheeses, butters and fats, Fresco foods and beverages, **Divella wheaten products** (an Italian pasta brand, so probably imported), tomato products, processed meats, marine products, pizza ingredients, vegan products, cakes and breads, sauces, oils, cleaning and packaging products. Customers **register online to order**. That is a pizzeria and food-service distributor.

WHAT THIS CHANGES

The VAPS quote names **Impact Distributors (Pty) Ltd only**, misspelt, as a "Transport Contractor". Whoever owns the trucks, the stock and the factory must be named. Get **CIPC numbers for all five**; the broker authorisation letter was signed for "Impact Distributors" only, so the other four may need their own.

ENTITY WORKSHEET	CIPC REG	VAT	ON VAPS?	ON BRYTE?
Impact Distributors (Pty) Ltd	?	?	Yes, misspelt	Yes
Bandini Cheese	?	?	No	?
Fresco Foods	?	?	No	?
Fresco Beverages	?	?	No	?
Elena's Delicatessen	?	?	No	?

THE PLAY

A motor quote gets you a fleet. A group review gets you the account: products liability and recall, GIT, three sites of property, deterioration, machinery breakdown and BI. **That is what Bryte's broker has not shown the client, and what we can.**

Products liability, recall, and section 61

Consumer Protection Act, section 61: the producer, importer, distributor and retailer are each liable for harm caused by unsafe goods, **without proof of negligence**. This group is all four: Bandini Cheese and Fresco produce, Impact imports and distributes, Elena's sells.

ASK THE CLIENT, THEN BRYTE	WHY
Who carries products liability?	Limit per event and aggregate; all five companies named; imported ranges included.
Any manufacturing exclusion?	CS Continental's OUTsurance wording excluded harm from goods the insured "prepared and packaged". A cheese maker hits that head-on.
Claims-made? Retro date?	If claims-made, the retro date must carry across or past production is uninsured.
Product recall / contamination?	Usually a separate policy. Most SA food SMEs do not have it.
Pollution?	Dairy effluent at Doornkop; ammonia if the cold rooms use it.
Who insures the property?	Factory, warehouse, bottling plant, stock, BI. Might be Bryte under COM208596JB, might be elsewhere.

IN THE ROOM

"As een batch mozzarella besmet is en dit gaan na honderd pizzerias, is julle aanspreeklik, al het niemand 'n fout gemaak nie. Dis die Consumer Protection Act. Wie dek julle vandag daarvoor, en vir hoeveel? Want dit is 'n groter risiko as enige trok."

THE PRECEDENT, USE IT CAREFULLY

The 2018 listeriosis outbreak, traced to a processed-meat plant, is the example every food business in SA knows. Do not dramatise it; just ask what would happen if it were their product.

HOW TO PRICE IT

Products liability usually sits in a broadform liability section rated on turnover. We will need **group turnover by company**, export sales if any, and product types. Recall needs a separate submission: recall plan, batch traceability, largest customer.

LIABILITY AND RECALL SUBMISSION: WHAT THE MARKET WILL ASK FOR

- | | |
|--|--|
| ☐ Turnover by company, last and next year | ☐ Export sales, if any (Namibia, Botswana?) |
| ☐ Product list and imported brands | ☐ Food safety certification (HACCP, FSSC 22000) |
| ☐ Recall plan and batch traceability | ☐ Largest customers and contracts |
| ☐ Liability claims in 5 years | ☐ Current liability limits and retro date |

ALSO ON THE NEEDS LIST (PROPOSAL PAGE 3)

GIT with deterioration in transit and driver dishonesty · deterioration of stock in cold rooms (check for a load-shedding exclusion, as on Vuyos) · machinery breakdown on pasteurisers, boilers and the bottling line · BI (one cheese factory feeds the whole distributor) · fidelity and money · accounts receivable or trade credit (they sell on account to restaurants) · cyber (online ordering, POPIA) · GPA for drivers.

Read Bryte's two options before you compare

BRYTE OPTION	WHAT IT SAYS
Option 1	Keep HCV and trailer excess at 10% of claim, minimum R30,000 , and increase the premium and the deposit premium.
Option 2	Excess rises to 20%, minimum R30,000 ; buy back 10% for R421,650.44 a year on 72 HCV and trailers (R46,850,049) and 5% for R130,866.57 on 38 PMV/LDV (R14,540,730). R552,517 a year, R46,043 a month , to stand still.
Aggregate excess	Client carries the first R2,500,000 a year of truck and trailer Subsection A claims, stop loss R250,000 , inner excess R20,000 , outer 20% min R30,000 once the fund is used. Insurer premium R1,972,073 (HCV/trailer TPF&T and reinsurance R1,054,125, LDV R222,049.20, PMV R507,038.80, special types R188,860). 90% deposit R1,774,865.70 up front ; burner 60% = R1,064,919.42 ; past that, the balance is due at once.

ASK WHICH OPTION THE CLIENT IS ON, AND DO THE SUM

Declared own damage on trucks and trailers is about **R1.88m** and theft **R1.88m**. If that is a single year, the aggregate structure has them paying most of their own truck losses plus R1.77m up front. If it is three years, it may work. **The claims dates decide it.** "Subsection A only" also means theft of trucks may sit inside the fund: confirm with Bryte.

VAPS, AS QUOTED

- HCV over R200k: 10% min R30,000; theft 15% min R5,000; +5% between 23h00 and 04h00.
- VAPS54248: no reducers. VAPS54229 (split) has them: **R661,925/yr** on 75 trucks and trailers, more than Bryte's R552,517 buy-back on 110 vehicles.
- Agreed value not stated: retail at date of loss unless written in (cap retail + 20%).
- No GIT. TP R2.5m / R1m fire. Passenger liability not on the bus.

TRACKING, THE CARTRACK PLAY

- VAPS: tracking with recovery on everything over R200k = **93 to 112 units**; video telematics on HCV over R800k; trailer units on trailers over R200k.
- Theft is **R1,876,816 of R3.84m**. Find out what is fitted and by whom.
- Bryte's tracking endorsements: get them from the schedule.

DECLARED CLAIMS (PERIOD UNCLEAR)	CLAIMED	BASIS	VAPS EXCESS, AT LEAST
Theft / stolen vehicles	1,876,816.18	15%	281,522.43
Own damage, recovered from TP	1,711,448.16	10%	171,144.82
Trailer roof struck while parked	170,601.76	min R30k	30,000.00
OD only, windscreens, possible TP	84,859.94	10% / 20%	14,226.00
Total	3,843,726.04		496,893.25

VAPS QUOTE CORRECTIONS STILL OUTSTANDING

Name "Impact Distributots" · business "Transport Contractor" · all five companies to be named · reg and VAT blank · inception 01/10/2026 already past · windscreen printed as "FLEET Item 1, 12" · hail line on page 18 ("vehicles in the open not under carports or hail nets: not covered") to be confirmed not to apply.

The Naked Truth

Where this pack is weak. **Raise them first.**

1 ▶ "Every quote is dearer than Bryte"

As quoted, yes: VAPS +R26,981, Hollard +R19,596, the split +R77,168. Bryte's increase is unknown, and extras (reducers, roadside, windscreen, fees) explain most of it.

SAY "Op die voertuie alleen is die split R9,839 goedkoper as Bryte, en Bryte se increase kom nog. Die res is ekstras wat ons kan uithaal."

2 ▶ We do not know Bryte's increase

The comparison is against a renewal that has not been priced yet.

SAY "Bryte het nog nie gesê hoeveel die increase is nie. Ek vra dit vandag, dan wys ek die regte verskil."

3 ▶ Four different fleet counts

Bryte 159, VAPS 155, Hollard 155, split 158. The new register (158 items, R67.38m) settles it, but Bryte, VAPS54248 and Hollard were not quoted on it. And the bus has gone.

SAY "Ek laat almal op julle nuwe lys kwoteer, dan weet ons almal dek dieselfde. Waar is die bus?"

4 ▶ "We have products liability"

They may. We have not seen it. Do not imply they are uninsured.

SAY "Goed, stuur vir my die skedule. Ek wil net seker maak al vyf maatskappye en julle invoere is daarop."

5 ▶ The claims period

Only "2026" is written on the declaration. If R3.84m is one year, both prices move.

SAY "Watter jare is dit? Dit bepaal alles: die prys, die excess en of die aggregate opsie sin maak."

6 ▶ Tracking cost lands on them

Up to 112 units plus video telematics.

SAY "Met diefstal as die helfte van julle claims, sal enige versekeraar dit vra. Dis wat julle eis laat betaal."

7 ▶ Bryte's aggregate looks cheaper

R1.97m insurer premium against R2.32m, but the client funds up to R2.5m of truck claims and pays 90% up front.

SAY "Die laer premie is omdat julle self die eerste R2.5m se trok-eise betaal. Met julle claims history moet ons dit eers uitwerk."

8 ▶ Hollard's excess on the cars

5% of the vehicle's value: R23,921 on an average SUV for any claim. A R20,000 dent pays nothing.

SAY "Hollard se cover is sterker, maar op die karre is die excess baie hoër. Ons laat die excess reducers prys voor julle kies."

BOTTOM LINE

The fleet is close on price; the account is wide open. Win the review by showing them what nobody has: which company carries products liability, whether there is recall cover, and whether their loads, cold rooms and factory are insured. Then the fleet follows.

Your moves, in order

- 1 E-mail Bryte today with the signed letter**
Full schedule for COM208596JB, the renewal increase, 3-year claims, all policies for the group. Draft supplied by Anne.
- 2 Ask the client who insures the rest**
Property, liability, recall. If not Bryte, a second authorisation letter for that insurer.
- 3 Get the claims dates and the option**
Which years make up R3.84m; which Bryte option they are on (10%, 20% with buy-back, or aggregate).
- 4 Re-quote VAPS54248 and Hollard on the register**
The 158-item register, agreed values, all five companies, GIT, reducers, R5m TP. VAPS through FSP, ref 49275144.
- 5 Hollard by 21 October**
E-mail David Schell (draft from Anne): broker of record, Sasria reissue, increased TP in or out, parking limits, reducers, GIT, fund size, risk fee.
- 6 Send the split back**
VAPS54229: Sasria on the 44 trucks, Q2 reissued with TP limits, R5m TP, VAPS54248 rates, price without reducers and theft-only, explain the admin fee. Bouwen: road risk on registered plant. Riskflow: Cartrack's code.
- 7 Get the fleet list**
The 158-item list with agreed values is on her 5 Oct e-mail to Tranquille and FSP; it is not in Anne's mailbox.
- 8 Tracking audit**
What is on the 44 trucks, 31 trailers and 43 cars, who supplies it, is it monitored. Count the Riskflow high-risk models.

"Bryte het ons al jare, hoekom moet ons skuif?"

"Julle hoef nie noodwendig te skuif nie. Ek wil eers sien wat Bryte en julle ander versekeraars dek. As alles reg is, sê ek so. Maar niemand het nog vir julle gewys of julle products liability en recall cover het nie, en dis die grootste risiko in 'n kosbesigheid."

"Die prys is al wat saak maak."

"Op die trokke is die verskil klein. Waar julle geld kan verloor, is 'n besmette batch, 'n gehijackte load of 'n koelkamer wat afgaan. Kom ons maak eers seker dit is gedek."

This week	Bryte e-mail out; client asked about other insurers, claims dates, Bryte option
Next week	Bryte schedule in; liability and recall submission to market; VAPS revised
By end October	Group review presented with one recommendation and the record of advice
1 November	Split inception date on all three quotes
About 6 November	VAPS54248 expires; ask for an extension if needed
