Three quotations, reconciled

Your current policy is **CIB V567478** at **R20,879.02** a month. We took the same three houses, the same contents and the same five vehicles to Hollard and to Santam. **Both came back cheaper — but only one of them is actually insuring the same thing.**

CIB • CURRENT R20,879.02 R250,548 a year	HOLLARD PRESTIGE R18,613.71 –R2,265.31 / mo	SANTAM EXECUTIVE R19,886.93 –R992.09 / mo

OUR RECOMMENDATION — HOLLARD

It is **the cheapest of the three** and the only one that keeps your houses insured at their real value with **agreed value on both collector cars**. It also adds **R30,000,000 of personal liability**. Three things need correcting before you sign — **page 05**.

THERE IS A SECOND POLICY, AND IT ALSO IMPROVES

Your **properties policy** through Tranquille moves from **R11,763.02** to **R11,564.35**. Small, but there is a condition attached to it we would not accept as it stands — **page 06**. Taken together, both policies move from **R32,642.04** to **R30,178.06** a month — **R29,567.76** a year.

Santam insures your house for two thirds of it

Santam comes in R992 a month below CIB. Here is where that money comes from.

BUILDINGS	CIB	HOLLARD	SANTAM
Main residence, Meyersdal	R30,360,000	R30,360,000	R20,000,000
Danabaai	R6,140,000	R6,140,000	R4,000,000
Vaal Marina	R2,380,000	R2,380,000	R2,380,000
Total insured	R38,880,000	R38,880,000	R26,380,000

△ WHAT THAT MEANS ON A CLAIM

Santam is **R12,500,000 short**. Insurance policies carry an **average clause**: if the sum insured is less than the value at risk, the insurer pays the same proportion of the loss.

Your main house is insured at about two thirds of its value on that quotation. A total loss would settle at roughly **66 cents in the rand** — you would carry around **R10,360,000** of it yourself. And average applies to *partial* losses too, so a R2,000,000 fire pays about R1,320,000.

△ AND THE TWO COLLECTOR CARS ARE ON THE WRONG BASIS

Both the **Porsche 911 GT3 RS** and the **1968 Dodge Charger** are quoted on **retail value** rather than **agreed value**.

Worse, the **Dodge is described on the schedule as a "1996 Base Coupe"**. It is a **1968 Charger**. A 1968 Charger has no meaningful retail book value — which is exactly why it is insured on an agreed value of R2,000,000 today. On the basis quoted, **that figure is not what would be paid**.

TO BE FAIR TO SANTAM

We do not think this is sharp practice — it looks like the quotation was built from incomplete information. **It can be fixed**, and if the excesses on page 04 matter to you, it is worth fixing rather than discarding. But **it must not be accepted as it stands**.

What you pay when you claim

The excess is the first slice of any claim you carry yourself. On your current policy it is **very high on the two cars you would least want to damage**.

CIB TODAY · PORSCHE

R200,000

per claim

HOLLARD · PORSCHE

R150,000

per claim

SANTAM · ANY VEHICLE

R5,500

per claim

READ THAT AGAIN, BECAUSE IT IS THE LARGEST SINGLE NUMBER IN THIS REVIEW

If the Porsche is damaged today, **the first R200,000 is yours**. On the Santam quotation it would be **R5,500**. Santam also waives the theft excess entirely where an approved tracking device is fitted.

That is a R194,500 difference on a single claim — more than seven years of the entire saving we are discussing. It is a genuine advantage and we are not going to talk you out of it.

SO WHAT DO WE ACTUALLY ADVISE?

If the sums insured matter most to you: take Hollard. Cheapest, correct buildings, agreed value on both collectors, R30m liability.

If the excess matters most to you: go back to Santam and have the quotation rebuilt — at R38,880,000 of buildings, with agreed value on the Porsche and the Dodge, and the Dodge correctly described. Then compare it again properly. **What we will not do is let you take Santam as it is quoted today**, because the excess saving is real and the buildings shortfall is much larger.

△ A GAP ON ALL THREE — YOUR JEWELLERY AND WATCHES

None of the three quotations carries specified all-risks cover for valuables. CIB gives R300,000 away from home, subject to **locked-safe warranties**; Hollard gives 20% of contents worldwide; on Santam, **All Risks is not taken at all**.

On a household of this kind, an unscheduled watch or jewellery collection is the most likely uninsured loss in the file. **Please tell us what it is worth and we will schedule it properly.**

Three corrections on the Hollard quotation

We are recommending Hollard. That does not mean the quotation is right as issued — these three things must be fixed and confirmed in writing first.

1 The Porsche is R1,000,000 under-insured on the quote

Your 2019 911 GT3 RS is insured today at **R5,000,000** — R4,000,000 for the car plus the **R1,000,000 Weisig Package**. The Hollard quotation shows **R4,000,000. The package has to be added back.** This is the single most important correction in the file, and it is worth more than the annual saving.

2 The Dodge's basic excess reads "Unspecified"

A blank excess is not a low excess — it is an unknown one. It must be stated as a rand figure on the schedule before inception.

3 Early-warning trackers on every vehicle, within 14 days

Hollard makes this a **condition of cover**, not a suggestion. Your **BMW M5** already carries a **Cartrack CT1** and the 2023 D350 has a Tracker unit — so three vehicles need attention. **If the fourteen days pass without the devices fitted and active, the theft and hijack cover falls away.** We will arrange this so it is done inside the window.

YOUR CLAIMS HISTORY, FOR THE RECORD

Two claims, both in 2021 — a geyser at **R10,400** and lightning at **R107,693**. Nothing since. That is a clean record on a household of this size and it is part of why the market has come back competitively.

A DISCLOSURE WE ARE OBLIGED TO MAKE

Replacing your CIB policy means **any reduction in cover must be disclosed to you in writing before you decide**. Everything we have found is set out in this document — the buildings shortfall and settlement basis at Santam, the Porsche sum insured at Hollard, the valuables gap on all three, and the liability change on the properties policy overleaf. **Please read it and tell us if anything is not as you understood it.**

The properties policy — and one line we would not accept

PROPERTIES — CURRENT

R11,763.02

per month

QUOTED

R11,564.35

-R198.67 / mo

BUT LIABILITY DROPS

R50m → R20m

and changes basis

△ TWO REDUCTIONS HIDDEN IN ONE LINE

Public liability moves from **R50,000,000 on an occurrence basis** to **R20,000,000 on a claims-made basis**.

The limit is cut by 60%. And **the basis changes**: an occurrence policy answers for anything that happened while it was in force, whenever the claim arrives. A claims-made policy only answers if the claim is made while the policy is live *and* the retroactive date reaches back far enough.

For R198.67 a month, we do not think that is a trade worth making. We have asked Tranquille to price R50,000,000 and to state the retroactive date in writing.

WHAT WE ARE DOING

1

Hollard — the three corrections

Porsche to R5,000,000 including the Weisig Package, Dodge excess stated, tracker condition confirmed with the approved device list.

2

Santam — a rebuilt quotation

Buildings at R38,880,000, agreed value on both collectors, the Dodge correctly described as a 1968 Charger. So you can judge the excess advantage against a like-for-like price.

3

Tranquille — the liability line

R50,000,000 priced, and the retroactive date in writing.

4

Valuables, quoted properly

Once you tell us what the jewellery and watches are worth.

WHAT WE NEED FROM YOU

- ✓ **The value of your jewellery and watches**, and whether you would like them scheduled individually.
- ✓ **Confirmation that the Porsche's 3,500 km a year limit** is still accurate.
- ✓ **Confirmation of the three property values** — R30,360,000, R6,140,000 and R2,380,000 — or your latest valuations.
- ✓ **Access to the vehicles** for tracker fitment, once you decide.
