NOTE TO POLICYHOLDER

Policy Schedule

This Policy Schedule becomes a tax invoice after inception of the cover, when payment of the amount due has been made. All Premiums and Fees are VAT inclusive; the TOTAL includes VAT of R71 197.69 and Commission of R67 975.33.

In terms of BGR14 issued by SARS, this document together with proof of payment of premium constitutes an alternative to a tax invoice, debit note or credit note as contemplated in sections 20(7) and 21(5) of the VAT Act respectively. Insured amounts are inclusive of VAT. Excesses are not subject to VAT.

For policy valuation purposes all amounts stated in the policy including sums insured, limits of cover, excesses and deductibles, are expressed inclusive of VAT at 15.00%. For clarity it is noted that in cases where an excess is expressly recovered by an insurer from an insured the excess amount in terms of the policy so recovered does not constitute a consideration as defined in the VAT Act and as such has no VAT consequence.

Where a premium field above (or within the content of this schedule) does not have a premium included or where cover is not specifically stated as being included, cover for this particular class of risk is not in force. If cover, or a quotation, for this excluded class of risk extension to cover is required please request this from the Intermediary in writing.

It is important that these documents be carefully checked to ensure that they meet with your full approval. The content of this schedule and the applicable policy wording will be the basis upon which any claim arising in the future will be settled.

All Sums Insured/Limits of Indemnity/Compensation specified within this Policy Schedule are inclusive of (15.00% VAT Incl).

This Schedule forms an integral part of your policy and must be read together with the policy wording.

Additional Services

The Value Added Product Schedule may be found at the end of the Policy Schedule and details additional insurance cover and/or value added products to the underlying Policy Schedule. The additional products are provided by an independent insurer or service provider to the Policy Schedule.

Clauses, Warranties & Endorsement Wordings

WARRANTIES & ENDORSEMENTS

Burglar Alarm Warranty TFT_001

It is a condition precedent to the liability of the Company that a burglar alarm system will be installed in the insured premises and it is warranted that:

1. the burglar alarm installed in the premises shall be fully activated whenever the premises is/are not open for normal business unless any principal, partner, director or employee is in the premises;
2. the insurance shall not cover loss of or damage to property following the use of keys, the keypad code or remote control of the burglar alarm or any duplicate thereof belonging to the Insured unless such keys, keypad code or remote control were obtained by theft.

Unless specifically stated to the contrary, all premises shall be protected by such alarm and it is further warranted that:

1. the contract for any burglar alarm services shall include services of a 24-hour armed response unit;
2. the control panel shall have an event log and the arming and disarming of the alarm shall be logged and after the occurrence of a claim the Company will be entitled to request full information of the relevant log;
3. such alarm will be maintained in proper working order but the Insured shall be deemed to have discharged their liability if they have maintained their obligations under a maintenance contract with the installation/service company of the alarm system;

PROVIDED THAT:

cover will continue to be applicable whilst the alarm system is not operative due to a failure of the public supply of electricity at the terminal ends of the supply authority's service feeders and that such failure is not due to any act or omission of the Insured.

Clauses, Warranties & Endorsement Wordings

WARRANTIES & ENDORSEMENTS

Burglar Alarm Warranty

It is a condition precedent to the liability of the Company that a burglar alarm system will be installed in the insured premises and it is warranted that:

1. the burglar alarm installed in the premises shall be fully activated whenever the premises is/are not open for normal business unless any principal, partner, director or employee is in the premises;
2. the insurance shall not cover loss of or damage to property following the use of keys, the keypad code or remote control of the burglar alarm or any duplicate thereof belonging to the Insured unless such keys, keypad code or remote control were obtained by theft.

Unless specifically stated to the contrary, all premises shall be protected by such alarm and it is further warranted that:

1. the contract for any burglar alarm services shall include services of a 24-hour armed response unit;
2. the control panel shall have an event log and the arming and disarming of the alarm shall be logged and after the occurrence of a claim the Company will be entitled to request full information of the relevant log;
3. such alarm will be maintained in proper working order but the Insured shall be deemed to have discharged their liability if they have maintained their obligations under a maintenance contract with the installation/service company of the alarm system;

PROVIDED THAT:

cover will continue to be applicable whilst the alarm system is not operative due to a failure of the public supply of electricity at the terminal ends of the supply authority's service feeders and that such failure is not due to any act or omission of the Insured.

MICRO-ORGANISM EXCLUSION (MAP) - (Absolute)

This Policy does not insure any loss, damage, claim, cost, expense, or other sum directly or indirectly arising out of or relating to:

Mold, mildew, fungus, spores or other microorganism of any type, nature, or description, including but not limited to any substance whose presence poses an actual or potential threat to human health.

This Exclusion applies regardless of whether there is

- i. any physical loss or damage to insured property;
- ii. any insured peril or cause, whether or not contributing concurrently or in any sequence;
- iii. any loss of use, occupancy, or functionality; or
- iv. any action required, including but not limited to repair, replacement, removal, clean-up, abatement, disposal, relocation, or steps taken to address medical or legal concerns.

This Exclusion replaces and supersedes any provision in the Policy that provides insurance, in whole or in part, for these matters.

PROVIDED THAT:
