INSURANCE REVIEW · OCTOBER 2026

R171 Million Insured. Is It Working?

A full read of your Old Mutual Insure policy, before you go to market. **Your presses, stock and vehicles are well insured on paper, but an outstanding survey has put a R100,000 excess on every damage claim, and the cover that would keep the business running after a loss is not there.**

INSURED TODAY	EXCESS ON A DAMAGE CLAIM	BUSINESS INTERRUPTION
R171.0m	**R100,000**	**R0**
plant, stock, contents and 16 vehicles	minimum, until the survey is cleared	no cover for lost income

ABOUT YOUR PREMIUM

The premium figures on the copy we received are not legible, apart from Sasria. We have asked for them so that every quotation is measured against what you actually pay. Please send us your latest Old Mutual debit order amount if that is quicker.

THE MOST URGENT ITEM ON YOUR POLICY

A R100,000 excess until the survey is cleared

Old Mutual surveyed 13/15 and 16 Rising Sun Street and listed items still to be done. Until they are, the policy applies a **punitive excess of 10% of the claim, minimum R100,000**, to damage at both premises. On a R1,000,000 fire claim you would carry **R100,000** instead of R25,000.

REQUIREMENT	WHAT IS NEEDED	WHERE
Guard monitoring	An electronic guard-patrol monitoring system linked to an external monitoring company, covering all vulnerable areas.	13/15 Rising Sun St
Fire alarm	A way to raise the alarm: aerosol siren in a sealed box, break-glass alarm system or manual siren. Tested monthly, serviced yearly.	Both premises
Hydrant and exit signage	Visible signage for hydrants, firefighting equipment, escape routes and exits.	13/15 Rising Sun St
Hose reel	The hose reel on the printing floor is obstructed. Clear it.	16 Rising Sun St
Firefighting equipment	Equipment is past its service date. Service it.	16 Rising Sun St
Flammable liquids permit	A registration certificate or permit from the council or fire department for storing inks and solvents.	16 Rising Sun St
Hot work	A hot work permit system for welding and cutting.	16 Rising Sun St
Storage	Aisles at least 2.5m wide, kept clear. No stock directly under lights; 500mm clearance and diffusers.	16 Rising Sun St

WHAT YOU WOULD CARRY YOURSELF ON A CLAIM

DAMAGE CLAIM AT EITHER PREMISES	TODAY, SURVEY OPEN	ONCE CLEARED
R250,000 a small fire in one bay	100,000	25,000
R1,000,000 a press and its stock	100,000	25,000
R5,000,000 a section of the factory	500,000	25,000

WHY THIS COMES FIRST

Any insurer we approach will survey your premises too, and will ask for the same things. **Clearing them now removes the R100,000 excess today and gives you a cleaner risk to take to market.** Most of the list is maintenance and paperwork, not capital spend.

ALSO ON THE POLICY

Stock must be kept at least 150mm off the floor on pallets or racks, or water damage to it is not covered. This applies at all three premises.

COVER A PRINTING BUSINESS USUALLY NEEDS

What is not on your policy

Your policy pays to replace a damaged press or burnt stock. It does not pay for **what happens to the business** while that press is down. These are the gaps we will ask the market to price.

COVER	TODAY	WHY IT MATTERS TO YOU
Business interruption	not covered	A fire at 16 Rising Sun Street (R93.7m of plant and stock) would stop production. Salaries, rent and lost profit until you are printing again are not insured.
Machinery breakdown	not covered	A press that breaks down internally (motor, gearbox, electronics) is not a fire or accident claim. Repairs and the downtime fall on you.
Power surge on plant	not selected	Power surge is switched off on the fire section. Load-shedding and grid failure damage is excluded on the whole policy.
Buildings	not on this policy	The premises are described, but no building sum insured is shown. If you own any of them, they need cover.
Electronic equipment	not covered	Pre-press computers, plate-setters and design equipment have no specialist cover.
Goods in transit	not covered	Finished print delivered in your own trucks is not insured on the road.
Money and fidelity	not covered	No cover for cash, or for theft by staff.
Bursting pipes and geysers	not selected	Water damage from burst pipes onto paper stock is switched off.
Vehicle third party	R2,500,000	One limit for all third party and passenger claims together. Heavy vehicles warrant R5,000,000.

AFTER A FIRE, YOUR POLICY TODAY PAYS FOR

- ✓ Replacing the damaged presses and plant
- ✓ Replacing the burnt stock and paper
- ✓ Office contents at that premises

AND DOES NOT PAY FOR

- Salaries while nothing is printed
- Rent and fixed costs during the rebuild
- Profit on orders you cannot fill
- The extra cost of outsourcing print to keep customers

WHAT WE WILL ASK FOR

A quotation for **the cover you have today, like for like**, and the same quotation **with business interruption, machinery breakdown and power surge added**, so you can see what each costs before you decide. Your liability retroactive date of **1 July 2003** must be carried over by any new insurer.

YOUR VEHICLES, AND WHAT HAPPENS NOW

Details to correct, then a market quotation

DETAILS ON THE SCHEDULE TO PUT RIGHT

Generators R2,000,000
make, model and serial numbers are marked "required" and missing

Land Rover Defender
R320,000 of unspecified extras; list them

Toyota Dyna
VIN and engine number recorded as zeros

Liability addresses
listed as Peak Street, every other section says Rising Sun Street

Company details
no registration or VAT number on the policy

WHAT WE WILL DO

1. **Confirm your premium**
   From your debit order or a clean copy from Old Mutual.
2. **Clear the survey**
   Work through page 3 with you so the R100,000 excess falls away.
3. **Go to market**
   Like for like, and with the gaps on page 4 priced as options.
4. **One recommendation, in writing**
   With every change in cover disclosed before you decide.

TRACKING AND THEFT COVER

A commercial vehicle stolen or hijacked without a tracker carries an extra R5,000 to R10,000 excess, and a car over R750,000 a further 2.5% of the loss. Nine vehicles have a tracker fitted; **the Mercedes S350, Defender, Fiat, Dyna, Hino 300 and forklift do not.** Any new insurer will set its own tracking conditions; we will confirm them before you sign.
